REGULATIONS OF THE UNIVERSITY.

TITLE I.

OF ADMISSION.

1.—In order to be Matriculated, a student must have produced to the officers of his College such testimonials of character as they may require, and have passed the prescribed examination. He shall, at the time of matriculation, subscribe a declaration of obedience to the authorities of the University.

2.—The nature and conditions of the examination to be imposed as a test for matriculation shall be such as Senate may from time to time by standing order require, regard being always had to the proviso of Statute 31.

TITLE II.

OF DISCIPLINE.

1.—Every member of the University *in statu pupillari* shall be liable, in case of misconduct, to such punishment as the Chancellor, or any officer acting under his authority, shall inflict; provided that no one shall be expelled from the University except by sentence of the Chancellor declared in Senate, or by vote of Senate with the concurrence of the Chancellor.

The College of Medicine and Armstrong College shall provide for and exercise the same control over the teaching, residence, maintenance, and discipline of all students of those Colleges as is conferred by Statute 54 on the Council of the Durham Colleges.

2.—Every member of the University not *in statu pupillari* shall be subject to the authority of the Chancellor, and shall be liable, in case of misconduct, to be fined by him in any sum not exceeding twenty pounds, to be paid into the University chest. No such member of the University shall be liable to any other punishment, excepting by a formal sentence passed by Senate and Convocation.

TITLE III.

OF KEEPING TERMS, AND OF STANDING IN THE UNIVERSITY.

1.—No student shall be held to have kept any term unless, being duly matriculated, he shall have complied with such conditions as the Senate of the University and the Council of the Durham Colleges, or the College of Medicine, or Armstrong College, by their standing orders may from time to time determine.

2.—If a member of the University has been prevented by illness or other urgent cause from keeping any term, that term may be granted by grace of Senate, on the proposal of the Council of his College, provided that not more than one term be so granted to any individual in any one academical year.

3.—In question of standing, every term shall be counted during which a person has been a member of the University, and has conformed to the regulations of the University, so far as they apply to him.

TITLE IV.

OF WOMEN STUDENTS.

1.—The residence of women students attending lectures in Durham will be subject to the conditions prescribed by the Council of the Durham Colleges.

The residence of women students attending lectures at the Newcastle Colleges will be subject to the conditions prescribed by those Colleges.

2.—Any student of eighteen years of age, who has completed a course of two years' study and examination at any one of the following Colleges or Institutions:—The Ladies' College, Cheltenham; Queen's College, Harley Street, London; the Women's Training College, Darlington; or the Women's Training College, Ripon; and has passed either the Intermediate Public Examination in Letters or the First Public Examination in Arts, may then, or at any future time, if her testimonials are approved, petition the University that the two years kept at such College or Institution may count as one year towards the Degree of B.Litt. or of B.A. respectively.

The arrangements made in this clause shall be terminable at twelve months' notice, reserving the privileges of then-existing students.

TITLE V.

OF THE STANDING AND EXERCISES REQUISITE FOR PROCEEDING TO DEGREES.

Section I.—Of the Standing and Exercises requisite for proceeding to the Degree of Bachelor of Arts in litteris antiquis.

1.—No grace for the degree of Bachelor of Arts *in litteris antiquis* shall be granted, unless the petitioner is a student in Arts and has kept six terms at least by residence, excepting as provided in clause 2 of this section.

Any student in Theology, who is recommended by his College, may petition the University that terms kept by him as a student in Theology may count as terms kept by him as a student in Arts, provided that he shall have passed the examination appointed for the admission of students in Arts, and that he shall not be admissible to the Final Examination for the degree of Bachelor of Arts unless he has passed the First Public Examination, and has subsequently kept three terms at least as a student in Arts.

2.—No grace for the degree of Bachelor of Arts *in litteris antiquis* shall be granted unless the petitioner has passed two public examinations, excepting as provided for in the following paragraphs and in Clause 4, paragraph 7. The first of these shall be for students who have kept three terms at least; the second for such as have passed the first and have subsequently kept three terms at least in Arts.

No candidate for Honours shall be admissible to the Second Public Examination until he has passed the First Public Examination for B.A. *in litteris antiquis*, and has kept six terms in attendance on Honour Lectures for the Second Public Examination.

Candidates for Honours in the First Public Examination must not have exceeded the standing of three terms from Matriculation or other qualification as students in Arts, except as provided in the last paragraph of this clause. Except as therein provided, candidates for Honours in the Second Public Examination must not have exceeded the standing of nine terms from Matriculation or other qualification as students in Arts, unless they have already obtained Honours in some school of the Second Public Examination; in which case they may be candidates for Honours in another school of the Second Public Examination, provided they have not exceeded the standing of fifteen terms from Matriculation or other qualification as student in Arts, and that they have attended lectures during at least three terms in the subjects of examination.

Students who have passed the Final Examination for the Licence in Theology, having previously resided six terms at least in the University of Durham, and have further resided one ordinary term as students in Arts, and Bachelors of Letters who have kept three terms at least in Durham, shall be admissible to the Final Examination for the Degree of Bachelor of Arts.

If a student, who has passed the First Public Examination in Theology, shall have completed the residence required for admission to the Final Examination for the Licence in Theology at a time when no such examination is appointed to be held, and shall, with the consent of the Council of the Durham Colleges, keep the ensuing term as a student in Arts, such term shall count as though it had been kept after the examination for the Licence in Theology had been passed.

Any person who has completed a course of study and examinations qualifying him for the Licence in Theology at one of the following Theological Colleges :—St. Aidan's, St. Augustine's, Burgh, Chichester, Cumbræ, Dorchester, Edinburgh, Gloucester, Highbury, Islington, Jamaica, St. John's (Armidale, N.S.W.), Lichfield, Lincoln, Moore College (Sydney), Queen's College (St. John's, Newfoundland), Salisbury, Selwyn College (Dunedin), Truro, Warminster, Bishop Wilson School (Isle of Man), the Theological Department of King's College, London, or the Theological Department of Queen's College, Birmingham, shall be allowed to count the final examination of his College in lieu of the first public examination, and shall be admissible to the final examination for the degree of Bachelor of Arts after he has kept three terms at least by residence as a student in Arts in Durham. Such terms must include a Michaelmas, an Epiphany, and an Easter Term. In order to keep terms, such a student must have been admitted to the Licence in Theology, either before or in the course of his first term of residence as a student in Arts.

Students in any of the Theological Colleges specified in the preceding paragraph, provided that the course of study and instruction therein be approved by the Council of the Durham Colleges, shall be allowed to proceed to the degree of B.A. under the following conditions: (a) they shall pass the Matriculation Examination of the University for admission as Students in Arts or some equivalent examination and be duly registered by the University as Matriculated Students in Arts. (b) They shall subsequently keep six terms of residence at their Theological College. (c) They shall then be eligible to enter for the First Public Examination in Arts. (d) After having passed the First Public Examination in Arts, they shall keep three terms in Arts at Durham, and be eligible to enter for the Pass Final Examination for the degree of B.A. *in litteris antiquis*. Provided that students proposing to proceed to a degree in Honours *in litteris antiquis* shall keep six terms at Durham after passing the First Public Examination in Arts, and shall not be deemed to be over standing for Honours if they have not exceeded the standing of six terms after passing the First Public Examination in Arts.

3.—The first of these examinations shall be conducted by three examiners at least. The subjects and books to which it shall be directed shall be fixed by Senate eleven months at least before its commencement; the subjects and books fixed for candidates for Honours being distinguished from the subjects and books fixed for other students.

Everyone admitted to this examination shall be required to prove his knowledge of Scripture History, of one Gospel in the Greek (or, in the case of conscientious objectors, in alternative subjects to be provided by Senate), of three Greek Plays, and six books of Virgil, or of equivalent portions of Greek and Latin

authors, *melioris ævi et notæ*, and of one at least of such other subjects as Senate shall from time to time determine. Candidates for Mathematical Honours shall be required to prove their knowledge of only one of the three Greek Plays, or its equivalent.

All those who satisfy the examiners shall receive certificates, and the candidates for Honours shall be classed according to their attainments. The number of classes shall be determined by the examiners, but the order of the names in each class shall be alphabetical.

4.—The Second and Final Examination shall be conducted by three examiners at least. Everyone who is admitted to it shall be required to prove his knowledge of the Evidences of Religion (Natural and Revealed), of one Gospel, and of the Acts of the Apostles in the Greek, except those who offer special Theological Subjects as provided in the following paragraphs. In the case of conscientious objectors, however, alternative subjects may be provided by Senate.

Students not candidates for Honours, who offer the Evidences, one Gospel, and the Acts of the Apostles, shall in addition be required to prove their knowledge of one Greek and one Latin book, *melioris ævi et notæ*, approved by Senate, and of one at least of such other subjects as Senate shall determine. Particulars respecting these subjects shall be published by Senate eleven months at least before the Examination.

Candidates for Honours, who offer the Evidences, one Gospel, and the Acts of the Apostles, shall in addition be examined in such subjects and books in Classical and General Literature, and Mathematical and Physical Science, as shall have been fixed by Senate eleven months at least before the examination; they may be examined also in other subjects and books selected by themselves, provided these subjects and books shall have been submitted to Senate and approved by it six months at least before the examination. No Licentiate in Theology shall become a candidate for Honours in the Final Examination for the Degree of Bachelor of Arts until he has passed the First Public Examination in Arts.

Candidates for Classical Honours only, need not be examined in Mathematics, nor candidates for Mathematical Honours only in Classics. Every candidate for Classical Honours may be examined both *vivâ voce* and on paper.

The Examination for Mathematical Honours shall be divided into two parts, as follows :—Part I : Euclid, Geometrical Conics, Algebra, Trigonometry, Analytical Plane Geometry, Elementary Mechanics and Hydrostatics, Geometrical Optics and Plane Astronomy. [The use of the Differential and Integral Calculus is not permitted in this part of the Examination.] Part II :

Differential and Integral Calculus, Differential Equations, Analytical Geometry of three dimensions, Newton's *Principia* i—iii, and any of the higher portions of the subjects of Part I. The Examiners shall have power to excuse from examination in the Classical Portion of the subjects for the Pass degree those Candidates who, having failed to obtain Honours, yet have shown sufficient knowledge of the subjects of Part I.

Students not candidates for Honours who have passed either the First Public Examination in Arts, or the Final Examination in Letters, and have subsequently kept three terms at least, may offer, instead of the above subjects, to be examined in such subjects mainly Theological as Senate may from time to time determine, provided that they shall be required to prove their knowledge of one Greek and one Latin book, *melioris ævi et notæ*, approved by Senate, unless they offer a specified portion of the Hebrew text of the Old Testament, in place either of the Greek or of the Latin Book. Particulars respecting the subjects shall be published by Senate eleven months at least before the Examination.

*Licentiates in Theology who have obtained Honours in the Final Examination for the Licence, and Licentiates in Theology who, having obtained the Licence without Honours under the Regulations existing before June 26th, 1906, have satisfied the Examiners for the First Public Examination in Arts, shall without residence as Students in Arts be admissible to the Second and Final Examination for the degree of Bachelor in Arts, and shall be required in that examination to prove their knowledge of one Greek and one Latin book, *melioris ævi et notæ*, approved by Senate, unless they offer a specified portion of the Hebrew text of the Old Testament, in place either of the Greek or of the Latin Book. Particulars respecting these subjects shall be published by Senate eleven months at least before the examination.

Candidates for Honours in Theology shall be examined in such books of the Old and New Testament in the original Tongues, and such other Theological Subjects as shall have been fixed by Senate eleven months at least before the Examination.

All who satisfy the examiners shall receive certificates. For those who are judged worthy of Honours there shall be three separate classifications, one for such as have distinguished themselves in Classical and General Literature, one for such as have distinguished themselves in Mathematical and Physical Science, and one for those who have distinguished themselves in Theology. In each of these classifications there shall be four classes; the examiners being at liberty to leave any one or more of these classes vacant. Thus the Class Paper will be drawn up according to the form annexed :—

The conditions under which students, not candidates for Honours, shall be held to have passed with distinction shall be determined by Senate.

Candidates for the degree of B.A. *in litteris antiquis* may offer Military Science as an extra subject, and, if they satisfy the examiners, they shall receive a special certificate to that effect.

In cases where a candidate for Honours in the Final Examination for the Degree of B.A. is required to satisfy in a paper or papers of a Pass Standard, he shall be permitted to do so (without prejudice to his place on the Class List) at an Examination subsequent to that for which he presents himself for Honours, provided that he shall not be qualified to proceed to the degree until he has satisfied the Examiners in the pass papers.

5.—In all cases in which an undergraduate is admitted from another University, or a student of this University, not originally a student in Arts, becomes a student in Arts, such student shall be required to keep three terms by residence as a student in Arts before he is admitted to the Final Examination for the degree of B.A.

6.—Students of the University of Durham College of Medicine, or of Armstrong College, at Newcastle-upon-Tyne, may petition the Council of the Durham Colleges that terms kept by them at either of these Colleges, equivalent in duration to three terms kept by students in Arts at Durham, may count towards the degree of B.A. *in litteris antiquis*, provided that they shall have passed the First Examination appointed for students in Arts, at the beginning of the second year, and that they shall not be admitted to the Final Examination for the degree of B.A. *in litteris antiquis* unless they have kept three terms at least by residence as students in Arts at Durham.

Section II.—Of the Standing and Exercises requisite for proceeding to the Degree of Bachelor of Arts (other than in litteris antiquis) in the case of students not candidates for Honours.

1.—No grace for the Degree of Bachelor of Arts other than *in litteris antiquis* shall be granted unless the petitioner has kept nine terms as a student in Arts and passed an Intermediate Examination, a Second Year Examination, and a Final Examination, except as provided in the following paragraph.

Candidates shall be required to pass the Matriculation Examination, or such examination as may be accepted as equivalent by Senate, before beginning to keep terms, and shall not be eligible for the Intermediate Examination until they have kept three terms, nor for the Second Year Examination until they have kept three terms after passing the Intermediate Examination, nor for the Final Examination until they have kept three terms after passing the Second Year Examination.

Candidates who have been admitted to a Degree in any other Faculty (save Music) shall be excused the first year of residence and the Intermediate Examination.

2.—Candidates for the Intermediate Examination shall be required to satisfy in five subjects, of which two must be languages, one being an ancient language, under such further restrictions as to choice of subjects as may be imposed from time to time by Senate upon candidates from Newcastle and Durham respectively.

Everyone admitted to this examination must offer in the first instance not less than four subjects, and no candidate will be deemed to have passed who has not, in the first instance, satisfied the Examiners in at least four subjects at the same time. But a candidate who so desires may defer the fifth subject to a subsequent examination.

The subjects of the Intermediate Examination shall be :—

- (a) Latin.
- (b) Greek.
- (c) French.
- (d) German.
- (e) English Language and Literature.
- (f) Religious Knowledge *or* an alternative.
- (g) Ancient History.
- (h) Modern History.
- (i) Mathematics.
- (j) Logic.
- (k) Economics.
- (l) Geography.
- (m) Military Science.

The examination shall be conducted by examiners appointed annually by Senate, and the special books and subjects to which it is directed shall be fixed by Senate eleven months at least beforehand.

3.—Candidates for the Second Year Examination shall be required to satisfy in five subjects, and Candidates for the Final Examination shall be required to satisfy after more advanced study in four of the five subjects which they offered for the Second Year Examination, subject in either case to such restrictions as to choice of subjects as may be imposed from time to time by Senate upon candidates from Durham and Newcastle respectively.

Candidates for the Second Year Examination must offer, in the first instance, five subjects, but those who satisfy the Examiners in four subjects at one time, and fail in one subject only, may offer that subject by itself at a subsequent examination.

The subjects of the Second Year and Final Examinations shall be :—

- (A) Latin.
- (B) Greek.
- (C) French.
- (D) German.
- (E) English Language and Literature.
- (F) Religious Knowledge *or* an alternative.
- (G) Ancient History.
- (H) Modern History
- (I) Mathematics.
- (J) Philosophy.
- (K) Economics.
- (L) Education *or* (for Second Year only) Military Science.*
- (M) Geography.
- (N) Science.

The examinations shall be conducted by examiners appointed annually by Senate, and the special books and subjects to which they are directed shall be fixed by Senate eleven months at least beforehand.

Section III.—Of the Standing and Exercises requisite for proceeding to the Degree of Bachelor of Arts (other than in litteris antiquis) in the case of candidates for Honours.

1.—No grace for the Degree of Bachelor of Arts other than *in litteris antiquis* shall be granted unless the petitioner has kept nine terms as a student in Arts and passed an Intermediate Examination and a Final Examination.

* Candidates for the degree of B.A. other than *in litteris antiquis* may offer Military Science as an extra subject, and, if they satisfy the examiners, they will receive a special certificate to that effect.

Candidates for Honours shall be required to pass the Matriculation Examination before beginning to keep terms, and shall not be eligible for the Intermediate Examination until they have kept three terms (except as provided in clause 3 of this section) nor for the Final Examination until they have kept six terms after passing the Intermediate Examination.

Candidates who have been admitted to a degree in any other Faculty (save Music) shall be excused the first year of residence and the Intermediate Examination.

Each of these examinations shall be conducted by examiners appointed annually by Senate; and the special books and subjects to which it is directed shall be fixed by Senate eleven months at least beforehand.

2.—At DURHAM a candidate may read for Honours either in Mathematics or in two of the following subjects taken together—English, Modern History, French, German. In Mathematics a candidate may read for Honours in both the Intermediate and Final Examinations.

At the Intermediate Examination a candidate for Honours in Mathematics shall be examined in the mathematical subjects provided for First Year Mathematical Honours for candidates for the Degree of B.A. *in litteris antiquis*, and shall further satisfy the examiners in such subjects of the pass examination for the Degree of B.A. other than *in litteris antiquis* as Senate may from time to time prescribe.

At the Final Examination such a candidate shall be examined in the Mathematical subjects provided for the Final Examination for Mathematical Honours for the degree of B.A. *in litteris antiquis*. He shall further be required to satisfy the examiners in Religious Knowledge (or an alternative subject) as prescribed for pass candidates for the degree of B.A. other than *in litteris antiquis*.

Such candidates shall, in the Final Examination, take Religious Knowledge, Parts I and II (or alternative subjects) at one time, and all their Mathematical subjects at another time; but no candidate may offer himself for the former until he has attended lectures for three terms on the subjects in question, nor for the latter until he has for six terms attended lectures for Final Mathematical Honours.

Candidates for Honours in the other subjects shall take the Intermediate Examination as prescribed for pass candidates; but students who have resided for three terms and have passed the First Public Examination for the degree of B.A. *in litteris antiquis* may count this examination in lieu of the Intermediate Examination.

At the Final Examination such candidates shall be examined for Honours in the two subjects selected, and Honours shall be awarded on the results of the two examinations, taken together. Candidates for Honours in this examination shall not have exceeded the standing of four years from Matriculation, and shall not have exceeded three years from the time of passing the Intermediate Examination or the examination accepted as equivalent.

In cases where a candidate for Honours in the Final Examination for the Degree of B.A. is required to satisfy in a paper or papers of a Pass Standard, he shall be permitted to do so (without prejudice to his place on the Class List) at an Examination subsequent to that for which he presents himself for Honours, provided that he shall not be qualified to proceed to the degree until he has satisfied the Examiners in the pass papers.

3.—At NEWCASTLE Candidates for the Final Examination in Honours shall be required to have passed the Intermediate Examination before entering upon Honours study. The course for the degree in Honours shall occupy not less than three and not more than four years from matriculation. Of this period not less than two and not more than three years shall be occupied with Honours studies.

Candidates for Honours who elect to spend the last part of their course in original research, shall be allowed to pass the Intermediate Examination before entering Armstrong College, and to present themselves for an examination in Honours at the end of their second year of study. But no candidate shall proceed to a degree in Arts before the end of the third year of study.

No candidate for Honours shall be required to take any part of the Pass Curriculum other than that prescribed for the Intermediate Examination.

Honours shall be awarded in any one of the following subjects or groups of subjects :—

- (a) Any two of the following languages, with their literatures :—Latin, Greek, French, German, English.
- (b) The language and literature of England, or France, or Germany, together with a corresponding division of Modern History.
- (c) English language and literature.
- (d) Philosophy.
- (e) Ancient History.
- (f) Modern History.

(g) Mathematics.

(h) Philosophy, together with *either* (1) an Ancient or Modern Language as specified in (a); *or* (2) Ancient or Modern History; *or* (3) Economics.

(i) Economics, together with Modern History.

4.—All candidates who satisfy the Examiners shall receive certificates to that effect.

5. Candidates who obtain distinction in the Oral Examination in French or German shall receive special certificates.

Section IV.—Of the Standing and Exercises requisite for proceeding to the Degree of Master of Arts.

1.—No grace for the degree of Master of Arts shall be granted unless the petitioner is a Bachelor of Arts of the standing of nine terms at least from his admission to that degree.

2.—Any Bachelor of Arts of the requisite standing who has obtained Honours at the Final Examination for the degree of Bachelor of Arts or has passed with distinction, or who, after passing the Final Examination for the degree of Bachelor of Arts, has passed either the examination for the Diploma in Theology, or the examination for the degree of Bachelor of Divinity, or for the degree of Bachelor of Civil Law, or for the degree of Bachelor of Medicine, or for the degree of Bachelor of Letters, shall be admissible to the degree of Master of Arts without further examinations or exercises. Other candidates for the degree of Master of Arts shall pass such examinations or perform such exercises as Senate may require.

Section V.—Of the Standing and Exercises requisite for proceeding to the Degree of Master of Letters.

1.—No grace for the degree of Master of Letters shall be granted unless the petitioner is a Bachelor of Letters of the standing of three years at least from his admission to that degree.

2.—Any Bachelor of Letters of the requisite standing who has obtained distinction or been placed in Division I at the Final Examination for the degree of Bachelor of Letters, or who, before or after passing the Final Examination for the degree of Bachelor of Letters, has proceeded to the degree of Bachelor of Arts, shall be admitted to the degree of Master of Letters without further examination or exercise. Other candidates for the degree of Master of Letters shall pass such examinations or perform such exercises as Senate may require.

Section VI.—Of the Standing and Exercises requisite for proceeding to the Degrees of Bachelor and Doctor of Divinity.

1.—No grace for the degree of Bachelor of Divinity shall be granted unless the candidate has passed the examination for Bachelor of Divinity.

No one shall be admitted to the examination for the degree of Bachelor of Divinity unless, being not less than twenty-five years of age, he shall have produced satisfactory testimonials of moral character, and shall *either* (1) be a graduate of two years' standing in Arts or Letters of this University *or* (2) be a graduate of two years' standing in Arts of some other University of the British Empire, who has obtained the Diploma in Theology of this University, *or* (3) satisfy the Board of the Faculty of Theology that he is competent to pursue a course of study in Theology, and shall subsequently keep three terms in this University and pass the examination for the Diploma in Theology. Provided that up to the end of 1922, candidates shall also be admissible under the regulations in force in 1915, and any candidate may be examined in the subjects in force in 1915.

Candidates for the examination for the degree of B.D. shall be required to give evidence of a competent general knowledge of Christian Theology, and to be well acquainted with the New Testament in Greek, and with such portion of the Old Testament and in such languages as Senate shall from time to time determine; as well as with such other branch or branches of Theological study as shall be prescribed by Senate from time to time.

The examination shall be conducted by two or more examiners.

2. No grace for the degree of Doctor of Divinity shall be granted unless the candidate has proceeded to the degree of M.A. in this or some other University in the British Empire.

Candidates shall be of the standing of 10 years at least from their admission to the degree of B.A. (or M.A.).

Candidates for the degree of D.D. shall have proceeded to the degree of B.D. of this University.

Candidates for the degree of Doctor of Divinity shall, before the first day of the Easter or Michaelmas Term, send to the Secretary of Examinations an exercise consisting of *either* a published work *or* two dissertations on subjects approved by the Professor of Divinity. No grace shall be granted for the degree unless the exercise submitted shall have been adjudged by Examiners appointed by Senate to be a contribution to learning sufficient for the degree.

Section VII.—Of the Standing and Exercises requisite for proceeding to the Degrees of Bachelor and Doctor of Civil Law.

1.—No grace for the degree of Bachelor of Civil Law shall be granted unless the petitioner is of the standing of twelve terms at least from the date of his admission to the degree of Bachelor of Arts, nor unless he has passed the examination in Civil Law appointed by Senate.

2.—No grace for the degree of Doctor of Civil Law shall be granted unless the candidate has proceeded to the degree of M.A. in this or some other University in the British Empire.

Candidates shall be of the standing of 10 years at least from their admission to the degree of B.A. of this University. They shall also have proceeded to the degree of B.C.L. of this University.

3. Candidates for the degree of Doctor of Civil Law shall, before the first day of the Easter or Michaelmas Term, send to the Secretary of Examinations at Durham an exercise, consisting of *either* a published work, *or* two dissertations on subjects approved by the Board of the Faculty of Arts. No grace shall be granted for the degree unless the exercise submitted shall have been adjudged by Examiners appointed by Senate to be a contribution to learning sufficient for the degree.

In the case where dissertations are submitted, no grace for the degree shall be granted until the dissertations, having been accepted, shall have been printed by the candidate, who shall not be at liberty to make any alteration or addition thereto without the leave of the Senior examiner.

A printed copy of the exercise shall be sent to the Chancellor, the Vice-Chancellor, the Dean of the Faculty of Arts, the Proctors, the Head of the College or Hall of which the candidate is a member and the University Library.

Section VIII.—Of the Standing and Exercises requisite for proceeding to the Degree of Doctor of Letters.

1.—No grace for the degree of Doctor of Letters shall be granted unless the candidate has proceeded to the degree of M.A. or M.Litt. in this University.

2.—Candidates must be of the standing of 10 years at least from their admission to the degree of B.A. or B.Litt.

3.—Candidates for the degree of Doctor of Letters shall, before the first day of the Easter or Michaelmas Term, send to the Secretary of Examinations either published work, or a special dissertation on a subject approved by the Board of the Faculty of Arts; and no candidate shall be allowed to present a dissertation who has not taken an Honours course and taken an Arts degree with Honours in this University.

4.—No candidate will be accepted for the degree unless the exercise submitted shall have been adjudged by Examiners appointed by the Senate to be a contribution to learning sufficient for the degree.

5.—If a dissertation be submitted and accepted, the degree cannot be conferred until the dissertation has been printed by the candidate, who will not be at liberty to make any alteration or addition thereto without the leave of the Senior Examiner.

6. A printed copy of the Exercise must be sent to the Chancellor, the Vice-Chancellor, the Dean of the Faculty of Arts, the Proctors, the Head of the College or Hall of which the candidate is a member, and the University Library.

*Section IX.—Of the Standing and Exercises
requisite for proceeding to Degrees in
the Faculty of Medicine.*

1.—No one shall be held to be a student in Medicine unless he has passed the Matriculation Examination in such subjects as Senate shall from time to time determine, or such other of the Registration Examinations recognized by the General Medical Council as Senate shall deem equivalent.

2.—No grace for the Degree of Bachelor of Medicine shall be granted unless the petitioner is of the age of not less than twenty-one years, and has, since his registration, spent five years in medical and surgical study, and has been registered in the books of the General Medical Council, one of the said five years having been spent at the University's College of Medicine, Newcastle-upon-Tyne. He may spend the other four years of the curriculum either at Newcastle-upon-Tyne or at one or more of the recognized Medical Schools.

No grace for the Degree of Bachelor of Medicine shall be granted unless the petitioner has passed four public examinations.

The first of these examinations may be passed immediately after attendance on the necessary courses of instruction.

No one shall be admissible to the second of these examinations unless he has spent two academical years at least in medical study as above prescribed, and has passed the first examination.

No one shall be admissible to the third of these examinations unless he has spent three years at least in medical study as above prescribed, and has passed the second examination.

No one shall be admissible to the fourth of these examinations unless he has spent five years in medical study as above prescribed, and passed the third examination.

Candidates for the Degree of Bachelor of Medicine who have completed in a University of the United Kingdom a course of study and passed an examination in Biology, Chemistry or Physics qualifying for a Degree in Science shall be exempted from study and examination in the subject or subjects in which they have passed.

Candidates for the Degree of Bachelor of Medicine who have completed in the University of Durham the course of study in Physiology required for the Degree of Bachelor of Science, and who have qualified for the Degree of Bachelor of Science with Physiology as a chief subject of their final examination, shall be exempted from study and examination in this subject.

Candidates for the Degree of Bachelor of Medicine who have completed in a University of the United Kingdom a course of study and passed an examination in Biology, Chemistry or Physics, qualifying for Degrees in Medicine and Surgery, may be exempted from study and examination in the subject or subjects in which they have passed; and the Board of the Faculty of Medicine shall have authority to determine in any particular case whether the course of study pursued or the examination passed by a Candidate may be accepted for the purpose of the above Regulation, and may delegate this authority from time to time to a Committee approved by Senate, consisting of not less than five Members of the Board. The Board of the Faculty of Medicine shall currently report to Senate all proceedings taken under the foregoing Regulation.

No one shall be admissible to any one of these examinations unless he has produced to the Secretary of Examinations, or other officer appointed by the Council of the College of Medicine, satisfactory testimonials of conduct, and such certificates of attendance on Lectures and Hospital Practice as Senate shall require.

Each of these examinations shall be conducted by three or more examiners, and shall be directed to such subjects of Medical Science and Practice as shall have been fixed by Senate.

3.—No Bachelor of Medicine shall be admitted as a candidate for the degree of Doctor of Medicine unless he has satisfied the Examiners for the Matriculation Examination either in Greek or German, or has passed in one of these languages in an Examination which exempts from the Matriculation Examination.

4.—No grace for the degree of Doctor of Medicine shall be granted (except as provided in the following clause) unless the petitioner is a Bachelor of Medicine, of the age of not less than twenty-four years, and has been engaged, for at least two years subsequent to the date of acquirement of the Degree of Bachelor of Medicine, in attendance on the practice of a recognized Hospital, or in the Military or Naval services, or in medical or surgical practice, nor unless he has performed such exercises as Senate shall require.

5.—Senate shall have authority to arrange a Special Examination for the degree of Doctor of Medicine, to which persons who have been engaged in the active practice of their profession for fifteen years, and are of not less than forty years of age, and who have produced satisfactory testimonials of moral character, shall be admissible, due regard being had to their attainments in Arts.

6.—No grace for the degree of Bachelor of Surgery shall be granted unless the petitioner has passed the examination for the degree of Bachelor of Medicine, and has fulfilled such conditions as regards attendance on Lectures and passed such examination as Senate shall require.

7.—No grace for the degree of Master of Surgery shall be granted unless the petitioner is of the age of not less than twenty-four years, has obtained the degree of Bachelor of Surgery, and has fulfilled such conditions as regards attendance on Lectures and passed such examination as Senate shall require.

8.—No grace for the Degree of Bachelor of Hygiene shall be granted unless the petitioner is a Graduate in Medicine of a recognized University and of the age of not less than twenty-two years, and has, subsequent to the attainment of a first registrable qualification in Medicine, Surgery, and Midwifery, spent one year of professional study in attendance upon Lectures, &c., at the University of Durham Colleges, Newcastle-upon-Tyne, and shall have passed such examinations as Senate shall require.

No grace for the degree of Doctor of Hygiene shall be granted unless the petitioner is a Bachelor of Hygiene, and has, subsequent to the date of his acquiring the degree of Bachelor of Hygiene, been engaged for two years in Public Health administration, or in research work relating to Public Health, and shall have passed a further examination with respect to his contributions to the subject, conducted by two examiners appointed by Senate.

Such a candidate shall be required to send to the Secretary of Examinations of the College of Medicine *on or before January 1st* in any year, a Thesis and such other evidence of his contributions to the advancement of Hygiene as may support his application; and the examiners shall examine the candidate *viva voce* on such contributions, and shall report whether they adjudge him to be of sufficient distinction in special research or learning to receive the degree.

*Section X.—Regulations for the Pass Degree of B.Sc.**

1.—Candidates before entering on a course of study shall be required to have passed the University Matriculation Examination, or an approved equivalent.

Before presenting themselves for any one of the several examinations subsequent to the Matriculation examination they must present certificates of having attended the prescribed courses of study to the satisfaction of the Heads of the Departments concerned.

The curriculum for the Pass Degree of B.Sc. shall occupy three years at least; and shall be divided into three consecutive parts, to be called, respectively, the First, Second, and Final Parts.

FIRST PART AND EXAMINATION.

2.—The First Part shall occupy one year at least, and :—

(a) For candidates in Pure Science, shall comprise study in any four of the following subjects—Mathematics (Pure and applied), Physics, Chemistry, Geology, Biology, Military Science, Part I; provided that candidates who offer Military Science shall be required to offer at least two of the three subjects, Mathematics, Physics, Chemistry.

(b) Candidates in Agriculture may offer the same subjects as for Pure Science provided that Chemistry and Biology are included in their selection.

(c) Candidates in Engineering,† Naval Architecture,† Mining,‡ and Metallurgy are required to present the four subjects, Mathematics (Pure and Applied), Physics, Chemistry, Applied Mechanics and Mechanical Drawing.

A course of study in each of these subjects, except Mathematics, shall include work in the laboratory or drawing office.

Candidates may present themselves for the First Examination at the end of their first year, or at any subsequent examination which shall be held by the University. The examination is held each year in June and September. Every candidate admitted to this Examination shall offer in the first instance not less than three subjects at the same time, and no candidate

* The details of the subjects of examination are given on pp. 198-208.

† These Degrees are accepted by the Institution of Civil Engineers in lieu of their Associate Membership Examination, provided that the Matriculation Examination for Candidates in Engineering and Naval Architecture, or one of the equivalents (see pages 116-18) has been passed, prior to entry on the course of study.

‡ This degree has been approved by the Home Secretary for the purposes of the Coal Mines Act, 1911.

shall be deemed to have passed it who has not, in the first instance, satisfied the Examiners in at least three subjects at the same time. But candidates who so desire may defer the fourth subject to a subsequent examination. Such candidates will be required to satisfy the Examiners in this fourth subject before they can be deemed to have completed the First Examination.

For the purposes of this regulation Applied Mechanics and Mechanical Drawing are treated as one subject.

PURE SCIENCE.

SECOND AND FINAL PARTS AND EXAMINATIONS.

3.—In "Pure Science," the Second and Final Parts shall include two chief courses of study extending over two years, in subjects selected from the following*: Mathematics (Pure and Applied) Physics, Chemistry, Geology, Zoology, Botany, Human and Animal Physiology, which in all cases except Mathematics shall include practical work. There shall be a third course of study, extending over not less than one year, in one of the above subjects, not previously selected, or in Crystallography or Mineralogy or Logic or Education or Military Science, Part II; provided that any candidate taking Military Science must offer, as chief subjects, two of the three following: Mathematics (Pure and Applied), Physics, Chemistry. The subjects Crystallography and Mineralogy shall include practical work.

Candidates who have completed the First Examination shall present themselves at the end of the second year course for the Second Examination, which consists of an examination in the two chief subjects. The Third subject may be taken at the end of the second or third year course.

Candidates who have completed the Second Examination may present themselves at the end of the third or any subsequent year for the Final Examination in the two chief subjects; but they must also have passed the examination in the Third subject before they can proceed to the degree.

Distinction may be awarded in the Final Examination on the results of the examinations in either or both of the two chief subjects.

Registered Students in Medicine, who have passed the University of Durham Matriculation Examination before entering on medical study in the University, and who desire to take the degree of B.Sc., will be excused from study and examination in Mathematics for that degree after Matriculation; and in case they qualify for the degree of B.Sc. with Physiology as a chief subject of their Final

* The details of the subjects of examination are given on pp. 199-204.

Examination, their studies and examinations in Physics, Chemistry, and Biology, for the degree of B.Sc., will be allowed to count as studies and examinations for the first examination for the degree of M.B., and their studies and examinations in Physiology for the degree of B.Sc. will be allowed to count as studies and examinations for the second examination for the degree of M.B. also.

APPLIED SCIENCE.

SECOND AND FINAL PARTS AND EXAMINATIONS.

4.—In "Applied Science," the Second and Final parts shall consist of courses of study in the subjects of Agriculture, Mechanical, Marine, Electrical, Civil, or Military Engineering, Naval Architecture, Mining, or Metallurgy.*

In all the sections of the Second and Final Examinations, candidates will be required to pass in all the subjects of Group I at one examination, and any candidate who fails to satisfy the Examiner in any subject of Group I shall be deemed to have failed in the entire group. But in Group II candidates shall be allowed credit for each several subject in which they satisfy the Examiners, and will be required to be re-examined in those subjects alone in which they have failed. All candidates will, in the first instance, be required to present themselves for the full examination.

PURE AND APPLIED SCIENCE.

5.—Dates of the Examinations:—The second examination for B.Sc. will be held in June of each year. A supplementary examination will also be held in September at which only those candidates may present themselves who, on report of the Examiners, obtain permission of the Board of Professors of Armstrong College. The final examination for B.Sc. will be held in June of each year.

All candidates in Pure or Applied Science who do not offer Military Science as a part of their degree course may offer it as an Extra Subject, and, if successful, shall receive from the University a special certificate to that effect.

- (a) A Bachelor of Science who has graduated in Pure Science may proceed to the same degree in Applied Science by attending the second and third year courses in a branch of Applied Science and passing the respective examinations at the end of these courses; but attendance on courses of instruction and examination shall not be required of him in those subjects in which he may have qualified in the course for the degree in Pure Science.

* The groups of subjects to be taken in the different sections are given on pp. 204-8.

- (b) A Bachelor of Arts may proceed to the degree of Bachelor of Science in Pure Science by attending the second and third year courses in Pure Science and passing the respective examinations at the end of these courses.
- (c) A Bachelor of Arts may proceed to the degree of Bachelor of Science in Applied Science provided he passes the First Examination for B.Sc. in Applied Science and attends the second and third year courses in some branch of Applied Science and passes the respective examinations at the end of these courses.
- (d) Candidates for the Degree of Bachelor of Science may be exempted from the first year of study required therefor, provided that they have pursued in this or any other University a course of study equivalent thereto, and may further be exempted from the first examination for the degree provided that they have passed in this or any other University an examination equivalent thereto.

Applications for such exemption accompanied by original certificates must be sent in writing to the Secretary, Armstrong College, before May 30th.

- (e) The Faculty of Science shall have authority to determine in any particular case whether a course of study pursued or an examination passed by a Candidate in this or any other University may be accepted for the purpose of the above regulations and may delegate this authority from time to time to any Committee approved by Senate consisting of not less than five members of its own body.
- (f) In the case of Foreign or Oriental Students, who claim exemption under (d) and about whose qualifications there is reasonable doubt, the Faculty may, on the recommendation of the Principal of Armstrong College, require that such students shall pass the First B.Sc. Examination before entrance.
- (g) The Faculty of Science shall currently report to Senate all proceedings taken under the foregoing regulations.

*Section XI. (i)—Regulations for the Degree of B.Sc.,
in Pure Science with Honours.**

1. Honours in the School of Pure Science will be awarded in the following subjects:—(a) Mathematics (Pure and Applied), (b) Physics, (c) Chemistry, (d) Geology, (e) Crystallography and Mineralogy, (f) Zoology, (g) Botany, (h) Physiology.

* The details of the subjects of examination are given on pp. 209-10.

2. The curriculum for the degree of B.Sc., in Pure Science with Honours, shall occupy a period of not less than three and not more than four consecutive years. Of this period not less than two and not more than three years shall be occupied with study in one of the subjects in the Honours School of Pure Science.

3. The Honours Curriculum in each case shall consist of :—

- (a) a chief subject, the study of which shall extend over two or three years.
- (b) not less than two other subjects, to such extent as may be prescribed from time to time by the Head of the Department in which the chief subject is studied, subject to the approval of Senate.
- (c) French and German, as defined in paragraph 4 (attendance at a College Course in French and German shall not be obligatory).

4. The examinations for the degree of B.Sc. with Honours shall consist of (a) the examination in the chief subject of the Honours School, (b) the examination in the subjects selected under 3 (b), (c) an examination in French and German, in which the candidate's ability will be tested by the translation into English of passages related to the chief subject of the Honours School.

5. A Candidate for Honours shall proceed as follows :—

Either (a) attend the First Year Course qualifying for the First Examination for B.Sc. and present himself for that examination at the end of the course in June. In addition to passing the examination, the candidate must either be placed in the first division, or show to the satisfaction of the Board of Examiners special proficiency in at least two of the subjects of examination.

Or (b) present himself for a special examination in June before entering the College. The subjects of this examination shall be those prescribed for the First Examination for B.Sc., and must all be passed at one and the same examination. The candidate will be expected to show special proficiency in at least two of the above subjects, in which he will be examined by special papers. These two subjects must be selected with the approval of the Head of the Department concerned, and the candidate must announce, when sending in his application, the subject of the Honours School of Pure Science which he intends to take as the chief subject of his course.

6. Candidates who pass the special first examination before entering the College in accordance with paragraph 5 (b) will be required to pursue a course of study extending over one year, in two subjects selected from the list of subjects given in paragraph 1. One of the subjects so selected shall be the chief subject in which the candidate proposes to proceed to the final examination. At the end of this year of study the candidate shall present himself for examination in the two selected subjects, and will be required to satisfy the Examiners in both subjects, before he is admitted to a course of study in the Honours School. This examination shall be accepted as excusing the candidate from further study and examination under 3 (b) and 4 (b) in one of the two subjects there prescribed. A candidate who, as a result of this preliminary Honours Examination, has been recommended by the Examiners not to proceed to a course of study in the Honours School, may, by special recommendation of the Examiners, be allowed to count the examination as equivalent to the second examination for the pass degree, provided that no such candidate be allowed to take his degree until the expiration of three years from entrance.

7. No candidate shall be allowed to read for Honours without the concurrence of the Head or Heads of the departments concerned.

8. Candidates who shall present evidence satisfactory to the Board of the Faculty of Science that they are qualified to enter upon a course of research may receive permission to pursue such a course, and to offer a thesis on their work in place of a corresponding part of the Honours examination.

Application for the recognition of research work should be made to the Board of the Faculty of Science, not later than the last day of October preceding the Honours Examination, together with a statement of the intended subject of research; and the thesis must be sent to the Secretary of Examinations not later than the first day of May preceding the Honours Examination.

9. Names of candidates who have passed the examination for the degree of B.Sc. with Honours shall be published in a list drawn up in three classes, each class being arranged in alphabetical order. The list shall indicate the chief subject of the School in which the candidate has obtained Honours.

10. Candidates who have not shown sufficient merit to deserve Honours, but have reached the standard of the Pass degree, may be recommended for that degree.

11. The Honours Examination shall be held in June of each year.

Every candidate for the degree of Bachelor of Science with Honours shall be required to present himself for examination at the end of the third or fourth year from the time when he commenced Science studies in the College as a Matriculated student, unless he shall present a medical certificate of illness, satisfactory to the Board of the Faculty of Science. A candidate presenting such a certificate may be allowed to enter for the Honours examination after the lapse of not more than one year from the time when he should have presented himself for examination, in due course.

12. Candidates who have obtained Honours in any subject of the Final Honours School may be admitted to examination in any other subject of the School after the expiration of not more than two years, on presenting certificates of having during that period attended courses of instruction approved by the Board of the Faculty of Science, provided that no candidate shall be so admitted after a longer period than six years has elapsed since the date of his first commencing Science studies in the College as a Matriculated student.

13. Candidates who have qualified for the Pass degree of Bachelor of Science may, with the approval of the Board of the Faculty of Science, proceed to a course of study in the Honours School ; provided that such course of study be pursued during a period of not less than one year and not more than two years. Such candidates may be excused the subjects and examinations specified under the heads 3 (b) and 4 (b).

(ii) Regulations for the Degree of B.Sc. in Applied Science with Honours.

1. The Curriculum for the degree of B.Sc. in Applied Science with Honours shall occupy a period of not less than three, and not more than four consecutive years. Of this period not less than one year shall be devoted to study in one of the subjects in the Honours School of Applied Science, as laid down in paragraph 3.

2. All candidates for Honours shall be required to comply with the regulations of the Pass Curriculum in Applied Science, and to pass the first, second and final examinations for the Pass Degree. In the case, however, of those who present evidence of sufficient previous training, attendance on the first year's course may be dispensed with, provided they pass the first year's examination for the Pass Degree, or are exempted under the regulations for the Pass Degree, and in their case the Honours Curriculum will be limited to a period of three years in all ; but no such candidates shall be allowed to take their degree until the expiration of the third year from entrance.

All candidates for Honours shall be required to pass a fourth examination, styled the "Final Honours Examination in Applied Science."

3. The course of study in the Honours School shall include (a) attendance on such lectures as may be from time to time prescribed by Senate, or by such authority as Senate may determine, (b) prosecution of such experiments, research, or investigation, or the preparation of such designs or plans, as may be approved by Senate or by such authority as Senate may determine, (c) presentation of a report or Thesis dealing with the work undertaken under head (b).

The Report or Thesis must be handed in to the Secretary of Examinations not later than the 15th day of May preceding the date of the Honours Examination.

4. The Final Honours Examination shall consist of examinations

(I) On the work referred to in par. 3, viz. :—

(a) in one or more branches (approved by the Head of the department concerned) of the Professional subject in the Honours School of Applied Science* offered by the candidate.

(b) in a subject related to the professional subject, and prescribed by the Head of the department concerned.

(II) In at least one language selected from the following :—French, German, Spanish, Italian, as tested by the candidate's ability to translate into English unseen passages from technical or scientific works in these Languages.

(Attendance at a College class in a Language shall not be obligatory).

5. No candidate shall be admitted to the Final Honours Examination who (a) has not completed the Curriculum as prescribed for the Pass Degree, subject to the possible modification of that curriculum as specified in par. 2 above, or (b) has failed, at first attempt, to satisfy the Examiners in the second or in the final examinations for the Pass Degree, or (c) has not completed, to the satisfaction of the Heads of the departments concerned, his final year's course of study in the Honours School.

6. With the exception of the first examination, the examinations, including the Final Honours Examination, must be passed in June at the end of consecutive sessions, and candidates failing to satisfy the Examiners in the Final Honours Examination cannot present themselves for another examination for Honours; it being understood that nothing in these regulations shall prejudice the attainment of the Pass Degree.

* For schedule of subjects see p. 210.

7. The names of candidates who have obtained Honours in the Final Honours Examination in Applied Science shall be drawn up in lists, each list being divided into two classes, and each class arranged in alphabetical order. After the name of each candidate shall be specified the Professional subject in which he has obtained Honours.

8. A candidate, who has obtained Honours in any Professional subject of the Final Honours School, may be admitted to examination in any other Professional subject of the School, after the expiration of a period of not less than one year, and not exceeding three years, from the date of the previous Honours Examination, provided he presents evidence of further study which is satisfactory to the Board of the Faculty of Science.

9. Candidates who have qualified for the Pass Degree of Bachelor of Science may, with the approval of the Board of the Faculty of Science, proceed to the course of study in the Honours School; provided that such course of study be pursued during a period of not less than one year and not more than two years.

Section XII. (i) Regulations for the Degree of M.Sc.

1. Bachelors of Science of not less than two years standing as such are eligible for candidature for the degree of Master of Science.

2. Candidates are required to furnish evidence of advanced knowledge in some division of Mathematical, Natural, Technical, or Mental Science, or in some considerable special branch thereof, to the satisfaction of the Examiners appointed by the University.*

3. Candidates may submit any original work they have done for the judgment of the Examiners, and the Examiners may accept such work in evidence of advanced knowledge, with or without direct examination of the candidate, as they may deem fit. The examination shall be held in June.

4. A Bachelor of Science who has been placed in the First or Second Class in the Final Examination for Honours in Pure Science or Applied Science shall be admissible to the degree of M.Sc. without further examination or exercise.

5. Graduates in Science of other approved Universities are permitted, under certain conditions, to become candidates for the degree of Master of Science without first taking the Bachelor of Science degree of this University. Such candidates must have satisfied the Faculty of Science that they are qualified to pursue some selected course of advanced study or research, and must have pursued such course for two years in this University.

* For recognised branches of Science see pp. 211-13.

6. Notice of candidature shall be given to the Secretary of Armstrong College, and shall be received by him *up to April 1st in each year*. Candidates must specify *by the same date* the subject in which they wish to be examined, and deposit a copy of any original work, published or unpublished, or any other evidence thereof, which they may desire to submit to the Examiners.

(ii) Regulations for the Degree of D.Sc.

1. A Master of Science who matriculated before September, 1901, may elect to proceed to the D.Sc. Degree under the regulations which will be found in Calendars before that date.

2. A Master of Science is allowed to become a candidate for the Examination for the Degree of Doctor of Science in the seventh year after the year in which he was admitted to the degree of Bachelor of Science, or in any subsequent year.

3. The candidate will be required to make his application in writing to the Secretary of Armstrong College, *on or before January 1st*, and to state the subject in which he offers himself for examination, forwarding at the same time such evidence of his contributions to the advancement of Science as may support his application. The Examiners shall examine the candidate *viva voce* on such contributions.

4. The candidate shall be allowed to proceed to the degree of Doctor of Science on approval of his qualifications by two Examiners specially appointed for this purpose, who shall report thereon to the Board of Examiners in the Faculty of Science, basing their report upon the candidate's distinction in special research or learning.

Section XIII.—Of the Standing and Exercises requisite for proceeding to Degrees in the Faculty of Music.

1.—No one shall be held to be a Student in Music unless he has passed the Matriculation Examination in such subjects as Senate shall from time to time determine, or such other Examination as Senate shall deem equivalent.

2.—No grace for the degree of Bachelor of Music shall be granted unless the petitioner has passed two public examinations. Every Student in Music admitted to the First Examination shall be required to prove his knowledge of Harmony and Counterpoint in not more than four parts. No one shall be admitted to the Second Examination who has not passed the First Examination and sent in an exercise to the Examiners, on or before a date to be announced from year to year, and from them received permission to be admitted. The Exercise shall consist of a Vocal Composition, either sacred or secular, containing five-part

harmony and good fugal counterpoint, with an accompaniment for a string band ; but in place of the two middle movements of the exercise candidates shall be allowed to offer themselves for such a practical examination as senate may prescribe. Every one admitted to the Second Examination shall be required to prove his knowledge of:—(1) Harmony ; (2) Counterpoint ; (3) Imitation, Canon and Fugue ; (4) Form ; (5) History of Music ; (6) The full scores of such works as shall be previously announced.

3.—No grace for the degree of Doctor of Music shall be granted unless the petitioner, being of at least fifteen terms' standing from the time at which he received the Bachelor's Degree, shall have composed an exercise and passed an examination in Music. The exercise shall not be presented for examination until the candidate is of thirteen terms' standing from the Bachelor's Degree, nor shall the examination be taken until the candidate is of fifteen terms' standing from the Bachelor's Degree. The exercise shall consist of a Vocal Composition, sacred or secular, preceded by an Instrumental Overture, and containing eight-part harmony and good fugal counterpoint, with an accompaniment for a full orchestra. The examination shall consist of:—(1) Harmony ; (2) Counterpoint (each of these including examples in eight parts) ; (3) Imitation, Canon and Fugue ; (4) Form ; (5) Instrumentation ; (6) History of Music ; (7) Elementary Acoustics ; (8) Knowledge of the scores of the standard works of the great composers.

These examinations in Music shall be conducted annually (at a time to be fixed by Senate) by two or more Examiners.

Section XIV.—Of the Standing and Exercises requisite for proceeding to degrees in Commerce.

1.—No one shall be held to be a student in Commerce unless he has passed the Matriculation Examination in such subjects as Senate shall from time to time determine, or such other examination as Senate shall deem equivalent.

2.—No grace for the degree of Bachelor of Commerce shall be granted unless the petitioner has regularly attended a course of study for three academic years, and passed three examinations, in Economics and in such other subjects as Senate may from time to time determine, provided that a modern Foreign Language, to be continued throughout the three years' course, shall always be included.

Candidates may, however, subject to the approval of the Board of the Faculty in each case, offer themselves at one time for a part only of any of the three examinations, or (under special circumstances) take the various subjects in an order different from that prescribed, provided only that they have completed the prescribed attendance on courses of instruction in those

subjects in which they present themselves for examination, and that they may be required to have passed one year's examination in any subject, before proceeding with the next year's course of study in that subject.

Attendance on courses of instruction for two or more years as evening students, and for two years as day students, may be considered as equivalent to regular attendance for three academic years.

3.—The names of successful candidates shall be published in alphabetical order; but distinction may be awarded to candidates who have completed the third examination for the degree, and who have shown sufficient merit in the second and third examinations.

4.—Candidates who have passed the Final Examination for a degree of this or any other University of the United Kingdom, or who present evidence of previous study satisfactory to the Board of the Faculty of Commerce, may be excused such attendance and examination as the Board may determine, provided that no candidate shall proceed to the degree until he has completed two years of study as a student in Commerce.

5.—No grace for the degree of Master of Commerce shall be granted unless the petitioner is a Bachelor of Commerce of the standing of three years at least from his admission to that degree.

Candidates shall be required to offer a dissertation on some subject approved by the Board of the Faculty, and to submit to such examination on the subject of their dissertation as may be required by Senate.

Section XV.—Of the Status of Advanced Student and of the Standing and Exercises requisite for proceeding to the Degree of Doctor of Philosophy.

[Formal Regulations will be introduced in due course. Senate has already agreed that no grace for the degree of Doctor of Philosophy be granted unless the petitioner :—

- (a) has been admitted to the Status of Advanced Student ;
- (b) has spent a period of not less than two years in pursuing a course of research under the supervision of the University, provided that after the first year of the course he may be permitted, on conditions approved by the University, to continue his course at some other approved place of study or research ;
- (c) has submitted a Thesis, which has been approved by the University, and passed an oral examination and (if required) a further written examination in subjects relevant to the Thesis.]

TITLE VI.

OF THE STANDING AND EXERCISES REQUISITE FOR OBTAINING
LICENCES AND DIPLOMAS.

*Section I.—Of the Standing and Exercises requisite
for the Licence of Students in Theology.*

1.—Students in Theology shall be licensed to present themselves to the Bishop for Ordination by grace of the University.

No one shall be held to be a student in Theology unless he has passed the Matriculation Examination in such subjects as Senate shall from time to time determine, or such other examination as Senate shall deem equivalent.

2.—No grace shall be granted unless the petitioner has kept the requisite number of terms as a student in Theology, is of approved moral and religious character, and of competent attainments.

The period of residence required of a student who has been admitted after passing the examination for the degree of B.A. *in litteris antiquis* shall be one ordinary term; that required of a student admitted after passing the examination for the degree of B.Litt. shall be three terms; that required of a student who has been admitted after passing the examination for the degree of B.A., or some higher degree, at another University, where the examination is of a character similar to that required at this University, shall be three terms; and that required of any other student six terms. Terms kept at one of the Theological Colleges specified in Title V, Section 1, clause 2, may be counted in lieu of residence in Durham, provided that the candidate has passed all the examinations required by his College.

If a student, who has passed the First Public Examination in Arts, shall have completed the residence required for admission to the Final Examination for the degree of B.A. *in litteris antiquis* at a time when no such examination is appointed to be held, and shall, with the consent of the Council of the Durham Colleges, keep the ensuing term as a student in Theology, such term shall count as though it had been kept after the examination for the degree of B.A. had been passed.

In proof of his attainments, he shall produce certificates of having passed two public examinations in Theology, except as provided in the following paragraphs. Either of these examinations may be taken after the completion of not less than three terms of residence and the other on the completion of six terms of residence. Terms may be kept by residence either in the University or at one of the Theological Colleges specified in Title V, Section 1, clause 2.

Each of these examinations shall be conducted by two or more examiners, and shall be directed to such subjects as have been fixed by Senate eleven months at least before its commencement.

In the examination taken after six terms of residence, distinction shall be awarded to candidates who, in addition to showing adequate knowledge of the subjects of the ordinary course, further satisfy the examiners that they are worthy of distinction in one or two, but not more than two, of such special subjects as Senate may from time to time determine.

Any student who has been admitted after passing the examination for the degree of B.A. *in litteris antiquis* shall be admissible to that one of the two examinations which Senate shall prescribe in or after the first term of his residence; any student who has been admitted after passing the examination for the degree of B.Litt. shall be admissible to the examination in or after the third term of his residence; any student who has been admitted after passing the examination for the degree of B.A., or some higher degree at another University, where the examination is of a character similar to that required at this University, shall be admissible to the examination in or after the third term of his residence; and any student admitted under Title V, section VIII, clause 1,* shall be admissible to this examination either before or during residence. All students admitted as above shall be excused the other examination. No other student shall be admissible to the Licence in Theology unless he has passed both examinations in Theology.

Any student in Arts, who is recommended by his College, may petition the University that terms kept by him as a student in Arts may count as terms kept as a student in Theology, provided that the terms so counted shall have been kept after the age required for admission as a student in Theology, and that he shall have passed the examination appointed for the admission of students in Theology, and that no such student shall be admissible to the Licence in Theology unless, after passing one of the examinations in Theology, he has kept three terms as a student in Theology and has subsequently passed the other examination in Theology.

3.—No such grace shall be granted unless the petitioner has previously declared in writing that he is a *bonâ fide* member of the Church of England as by law established.

Section II.—Of the Standing and Exercises requisite for the Diploma in Theology.

1.—Candidates for the Diploma in Theology must, before beginning their course for the Diploma, be Graduates of some University in the British Empire. Save that if an undergraduate of the University of Durham shall have completed the residence required for admission to the Final

* In the Old Regulations for B.D., in the numbering of the Titles as given in the *Calendar* for 1915-16.

Examination for the degree of B.A. at a time when no such examination is appointed to be held, and shall, with the consent of the Council of the Durham Colleges, keep the ensuing term as a student for the Diploma, such term shall count as though it had been kept after the examination for the degree of B.A. had been passed.

2.—No grace for the Diploma in Theology shall be granted unless the petitioner has completed a course of study extending over at least three terms, including attendance upon prescribed courses of lectures in the University, and has passed the prescribed examination, save that if he be a graduate of two years' standing or have satisfied the Board of the Faculty of Theology that he is competent to pursue a course of study in Theology, residence for one academical year in an Australian College, the course of study and instruction in which have been previously approved by the said Board, shall be accepted in lieu of attendance upon courses of lectures in the University. Unless special permission be granted by the Council of the Durham Colleges such terms shall be kept consecutively. They shall always include a Michaelmas, an Epiphany and an Easter term.

3.—The subjects of the examination shall be :—

- (i) A general knowledge of the Holy Scriptures.
- (ii) Portions of the New Testament in the original Greek.
- (iii) Portions of the Old Testament in English.
- (iv) Outlines of Systematic Theology, with special reference to the Creeds.
- (v) Church History.

Candidates may also (at their option) be examined in such other subjects as Senate may from time to time determine.

Students for the Diploma shall also be required to attend such courses of lectures in Pastoral Theology and Elocution as may be prescribed by the Council of the Durham Colleges.

4.—The examination shall be directed to such portions of the above subjects as Senate may prescribe at least eleven months beforehand.

5.—The examination shall be conducted by at least two examiners appointed annually by Senate. It shall be held in the Easter and Michaelmas terms.

6.—No candidate shall be deemed to have passed the examination who has not attained a satisfactory standard in all the above subjects numbered i—v at one and the same examination.

7.—The examiners shall publish the names of the successful candidates arranged in two divisions in alphabetical order in each. No candidate shall be placed in Division I unless he shall have obtained good marks in at least three of the subjects numbered i—v above and shall in addition have satisfied the examiners in at least one of the optional subjects.

Section III.—Of the Standing and Exercises requisite for the Diploma in the Theory and Practice of Teaching.

1.—Candidates for the Diploma in the Theory and Practice of Teaching must, before beginning their course for the Diploma, be graduates of some University in the United Kingdom, or must have obtained one of the qualifications recognized by the Board of Education in "The Regulations for the Training of Teachers in Secondary Schools."

2.—No grace for the Diploma in the Theory and Practice of Teaching shall be granted unless the petitioner has completed a course of study extending over at least three terms, including attendance upon prescribed courses of lectures in the University, and has further passed a written examination in the Theory of Teaching, and a practical test based on practical work in recognized schools.

3.—The subjects of the written examination shall include the principles and history of Education and the study of children during the school period and of school teaching and management. It shall be directed to such special subjects as shall have been fixed by Senate eleven months at least beforehand. An essay prepared by the candidate during the final term on some special subject of school work shall form part of the examination.

4.—The practical work of the candidate shall include attendance at approved schools under proper supervision during not less than 60 school days, and two-thirds of this time shall be in an approved Secondary School. Such work shall be tested by reports from the teacher of the school and from the Professor or Lecturer in Education as well as by records furnished by the candidate, who shall further give one or more lessons before the examiners.

Unless specially exempted, a candidate must make a special study of the teaching of one definite branch of the curriculum of a Secondary School, success in which will be recorded upon the diploma.

5.—The examination shall be conducted by at least two examiners, who shall be appointed by Senate.

6.—The examiners shall publish the names of the successful candidates in Theory and in Practice in alphabetical order, and shall indicate, by distinguishing marks placed against their names, the candidates (if any) who excel in the written or practical parts of the examination, or both. Candidates must present themselves for both parts of the examination, but candidates who pass in Theory may be allowed subsequently to present themselves for the practical examination without undergoing a further examination in Theory.

Section IV.—Of the Standing and Exercises requisite for the Diploma in Foreign Languages.

1.—Candidates for the Diploma in Foreign Languages must be graduates of the University in Arts, Letters, or Commerce. They must have satisfied the examiners for B.A., B.Litt., or B.Com. in the written part of the examination for such degree in the language which they offer. Should a candidate not have satisfied in such language in the examination for his degree, he shall for the purpose of the diploma be admitted on a subsequent occasion to the written part of the examination in that language for the degree of B.A. or B.Com.

2.—No grace for the Diploma in Foreign Languages shall be granted unless the petitioner has passed an examination in reading, conversation, dictation and oral and written reproduction of a passage read by one of the examiners in the language which he offers, in such a way as to show that he possesses ready comprehension, fluent expression, and correct pronunciation.

3.—The examination shall be conducted by at least two examiners appointed by Senate, of whom one shall be external; and it shall be held at such times as Senate may determine.

Section V.—Of the Standing and Exercises requisite for the Diploma in Public Health.

1.—Candidates for the Diploma in Public Health must be Registered Medical Practitioners, of not less than 22 years of age, who are of the standing of nine months, at least, from their first registrable qualification in Medicine, Surgery, and Midwifery.

2.—No grace for the Diploma in Public Health shall be granted unless, subsequently to the attainment of the aforesaid qualification, the petitioner (a) has received practical instruction for not less than four months in a Laboratory or Laboratories, approved by Senate, in which Chemistry, Bacteriology and the Pathology of the diseases of animals transmissible to man are

taught ; (b) has during six months been diligently engaged in acquiring a practical knowledge of the duties, routine and special, of Public Health administration ; (c) has during three months attended at least twice weekly the practice of a Hospital for infectious diseases, at which he has received instruction in the methods of administration ; (d) has passed the examinations prescribed by Senate.

Section VI.—Of the Standing and Exercises requisite for the Diploma in Psychiatry.

1.—Every candidate for the Diploma in Psychiatry must be a legally qualified Medical Practitioner.

2.—No grace for the Diploma in Psychiatry shall be granted unless the petitioner has attended such courses of instruction and passed such examination as Senate may from time to time determine. The examination shall be directed to the subjects of Anatomy, Physiology, Pathology and Bacteriology, Psychology and Experimental Psychology, Neurology and Psychiatry (systematic and clinical).

Section VII.—Of the Standing and Exercises requisite for the Licence in Dental Surgery.

1.—Every candidate for the Licence in Dental Surgery must have been registered by the General Medical Council as a Dental Student, and must subsequently have attended such courses of instruction at recognized University Colleges, Medical or Dental Schools as Senate may from time to time prescribe.

2.—No grace for the Licence in Dental Surgery shall be granted unless the petitioner has passed four examinations, for each of which he must present certificates of having attended the requisite courses of instruction. Before admission to the Final Examination, he must further furnish evidence of having undergone a three-years' pupilage in Mechanical Dentistry with a registered Dentist, and of having been engaged in professional study for at least four years subsequent to registration as a Dental Student. He must also sign a declaration binding himself not to advertise for professional purposes. The examinations shall be held at such times as may be prescribed by Senate.

TITLE VII.

OF THE MANNER OF CONDUCTING PUBLIC EXAMINATIONS.

Section I.—Of Ordinary Examinations.

1.—The Council of the Durham Colleges, the College of Medicine, and Armstrong College, shall be responsible for the conduct of University examinations held at Durham and in those Colleges respectively.

2.—There shall be three Secretaries of Examinations, one for the Durham Colleges, one for the College of Medicine, and one for Armstrong College. They shall be nominated by the respective Colleges and shall be appointed and paid by Senate. They shall hold office for a period of five years and shall be eligible for re-election.

The name in full of every student offering himself for any public examination and of his College (if any) must be signified by himself or some responsible person to the Secretary of Examinations for the Durham Colleges, or the College of Medicine, or Armstrong College, as the case may be, at such time before the commencement of the examination as the College in question shall determine.* An account, in writing, of the books or subjects selected by him, when any option is allowed, together with all necessary certificates, shall be delivered to the Secretary of Examinations at the same time.

Every student, on his name being received by the Secretary of Examinations, shall pay for any public examination the fee fixed for that examination by Senate, and the Secretary shall transmit the fees so received to the University Treasurer.

The Secretary of Examinations shall have printed an alphabetical list of those whom he admits to any public examination, and shall cause copies of it to be delivered to each of the examiners, and to be affixed on some public place or places appointed by Senate, seven days, or for examinations in the Faculty of Arts fourteen days, before the commencement of the examination.

Every student sending in his name after the time appointed shall pay such additional fee as Senate may determine.

No student may offer himself for examination after the list has been printed, unless he pay such additional fee as Senate may determine.†

Any student may withdraw his name from the list of those to be examined, provided he give notice to the Secretary of Examinations nine days before the beginning of the examination. In such a case the candidate may enter *either* at the next examination, *or* at the next examination but one (but not afterwards) without further payment.‡ Otherwise the

* For examinations in the Faculty of Arts at least six weeks before the beginning of the examinations.

† For examinations in the Faculty of Arts no late entries will be accepted.

‡ In the Faculties of Arts and Theology, the names of candidates who have withdrawn will be placed on the list for the next examination, and if such a candidate wishes to defer entering until the next examination but one he must give notice of withdrawal as provided above.

fee which has been paid is forfeited, except in the case of examinations where special regulations exist.

3.—Any official entrusted with the duty of superintendence in a University examination may immediately suspend or dismiss from examination a candidate guilty of flagrant breach of the rules, but such action shall be immediately reported to one of the Proctors.

4.—All questions arising among the examiners as to the framing of questions, the rejection of candidates, or any other matter, shall be determined by a majority of votes, the examiner in the chair having a casting vote.

5.—Any student who, at any final honour examination, presents to the examiners a sufficient assurance of his being in ill-health shall, if the examiners so recommend, be deemed to have passed the examination, and his name shall be placed in a separate list, distinguished by the word "Aegrotant," or some similar title. The names which are placed in it shall be arranged alphabetically. No candidate whose name is placed in this list shall be deemed to have obtained Honours.

6.—The names of those who obtain certificates at any public examination shall be entered in a register, and the entry shall be attested by the signatures of the examiners. The examiners shall also draw up, for publication, lists of the successful candidates.

Section II.—Of Extraordinary Examinations.

1.—If a student has been kept away from any public examination by severe illness or other urgent cause, and shall satisfy Senate that it would be a great hardship for him to wait for the next ordinary examination, he may apply to Senate to grant him an extraordinary examination.

2.—The number of examiners shall be the same for this as for an ordinary examination. The examination itself shall not be less rigorous, but no honours shall be awarded.

3.—Not more than one extraordinary examination for the same class of students shall be granted within one academical year.

4.—Every student who is admitted to an extraordinary examination shall pay, on his name being received by the Secretary of Examinations, such fee as Senate shall from time to time determine.

5.—Those who pass any extraordinary examination shall be registered in the same book with those who pass the ordinary examination, but in such a manner as to be distinguished from them.

TITLE VIII.

OF AFFILIATION.

*Section I.—Of the terms and conditions upon which
Colleges and like institutions may be affiliated
to the University.*

1. No application of any College or like institution for affiliation to the University shall be entertained until evidence has been afforded (as required by Statute 107) that its members are incorporated by Royal Charter, or that provision has been otherwise made (to the satisfaction of the Senate of the University of Durham) for its establishment on a permanent and efficient footing and for its government.

No application shall be entertained unless it sets forth the facilities which the teaching staff of the College or like institution affords for the adequate training of students in subjects set for examination by the University; nor unless it shows to the satisfaction of Senate that such College or like institution is equipped with such buildings, laboratories, machinery or other appliances as may be necessary for the proper instruction of students in the subject of the Faculty or Department in respect of which the application for affiliation is made.

No application shall be entertained unless it states the Faculty or Department in respect of which the application for affiliation is made.

2. The students of any College or like institution affiliated to the University in the way and under the authority prescribed by Statute 108 shall have their names placed on the register of the University as matriculated students thereof, provided that they shall have passed such matriculation examination as may be prescribed by the Senate.

Students so matriculated shall be admissible to the exercises and public examinations required for proceeding to degrees, licences and academical rank in the Faculty or Department in which they have matriculated, provided they shall have fulfilled to the satisfaction of Senate such conditions *inter alia* as to residence, attendance at lectures and conformity to discipline as are required of other students of the University so admissible.

Students who have fulfilled the prescribed conditions shall be proposed to Convocation for the degrees, licences, or academical rank for which a Proctor certifies that they have qualified.

3. The affiliation of any College or institution may be terminated at any time either by the University or by the authorities of the affiliated college or like institution by six months' notice on either side.

Section II.—Of the Affiliation of Codrington College Barbados, and Fourah Bay College, Sierra Leone, to the University.

1.—Students of Codrington College, Barbados, and Fourah Bay College, Sierra Leone, may have their names placed on the register of the University as matriculated students of the same, provided that the Principal of their College, or other person authorized to act in his behalf, shall have certified that they have passed an examination similar to that required for the admission of students in the several faculties in the University of Durham; and the aforesaid Colleges shall be accounted affiliated Colleges of the University of Durham.

2.—Students of the affiliated Colleges, having been so matriculated, shall be admissible to the exercises and public examinations required for proceeding to degrees, licences, and academical rank in the several faculties, provided that they shall have forwarded certificates of having fulfilled the same conditions as to residence, attendance at Lectures, and conformity to discipline in their own College, as are required from other students of the University so admissible, terms of residence being counted from the time of passing the Admission Examination of their own College.

3.—The Principals of the said Colleges shall forward to the Secretary of Examinations lists of students of their respective Colleges who are candidates for any examinations, together with the certificates required, in time for them to be received at Durham six weeks at least before the commencement of the examinations at Durham. The examination papers shall be sent to the Principals of the Colleges, in sealed packets, by the last mails, or last mails but one, that leave England previously to the commencement of the examination at Durham. The papers so sent shall be set to the candidates as nearly as possible on the days of the examination at Durham, and the answers to them returned, unread, as soon as possible after the conclusion of the examination to the Secretary of Examinations (who shall transmit them to the examiners), together with a certificate signed by the Principal of each College, or the person acting in his behalf, that the examination has been duly conducted, and the above-named conditions complied with.

4.—The examiners, after examining the papers, shall issue and publish in the usual manner supplemental lists of those who have passed the examination, and of those who have been adjudged

worthy of Honours ; which lists shall be sent by the Registrar without delay to the respective Principals of the Colleges ; and one combined list of all who have passed the examination in England, Barbados, and Sierra Leone, shall be inserted in the next issue of the *University Calendar*.

5.—All prescribed conditions having been fulfilled, graces for degrees, licences, or academical rank, shall be prayed in Convocation, in the usual manner, on behalf of students of the affiliated Colleges ; and certificates of such graces, having been granted, shall be forwarded by the Registrar to the respective Principals of the Colleges ; after the receipt of which the degrees, licences, or academical rank, for which graces have been granted may be conferred by their Lordships the Bishops of the dioceses in which the affiliated Colleges are respectively situated, as Visitors of the same, or by a Deputy Visitor, acting under commission from the Chancellor.

6.—The above arrangements may be terminated at any time either by the University or by the authorities of each affiliated College on notice of six months at least being given beforehand.

Anyone who previously to Michaelmas Term, 1875, has completed his course of study and examinations at Codrington College, Barbados, and has produced to Senate satisfactory testimonials of character, shall be admissible to the Final Examination for the degree of Bachelor of Arts, and, having passed that examination, to the degree of Bachelor of Arts.

TITLE IX.

OF ADMISSION FROM OTHER UNIVERSITIES.

No person shall be allowed to count terms which have been kept in another University, unless his application be brought before Senate by the Council of the Durham Colleges, or of the College of Medicine, or of Armstrong College, and approved by Senate ; except so far as is otherwise provided in Title V. Section IX, § 2, and Title V, Section X. § 5 (d), (e).

TITLE X.

OF MEMBERSHIP OF CONVOCATION.

All graduates of the University, qualified under Statute 35 for membership of Convocation, shall be deemed to have fulfilled the necessary conditions if they have continued without interruption to be members of the University from the date of their admission to the degree by which they claim their seat, and either have paid a fee of two pounds, or are members of the staff.

Female graduates of the University shall be admitted to membership of Convocation on the same terms and conditions as men.

TITLE XI.

OF DEGREES CONFERRED WITHOUT EXAMINATION.

Any person admitted to an Honorary degree under the provisions of Statute 92, though having no claim to membership of Convocation, shall enjoy the rank and wear the dress of his degree, and shall have admission to the Library and Museums, under such restrictions as may be imposed from time to time. Honorary Degrees shall not be conferred *in absentia*; but the names of persons resident abroad, for whom Honorary degrees have been voted by Senate, may be proposed to Convocation for graces to enable such degrees to be conferred on them at Colbrington or Fourah Bay, in the same manner as ordinary degrees.

Members of the teaching staff admitted to degrees without examination under the provisions of Statute 93 shall enjoy the full rights and privileges belonging to the degrees conferred upon them; but any right such a person may have to membership of Convocation in virtue of such a degree shall cease when he ceases to be a member of the teaching staff.

No person admitted to a degree without examination, by vote of Convocation, shall proceed from a degree thus conferred to any other degree.

TITLE XII.

OF THE CHANCELLOR.

When a vacancy shall occur in the office of Chancellor, the Vice-Chancellor shall, within a month of the occurrence (the months of July, August, and September excepted), summon a special meeting of Senate, in order that Senate may nominate a fit and proper person for the post of Chancellor.

No nomination shall be submitted to Senate to vote upon unless the nomination be made by a member of one division of the University and seconded by a member of the other division of the University.

If more than two persons be nominated, there shall first be taken a preliminary vote; and no name shall be submitted to Convocation which has not received an absolute majority of the votes of those present and voting.

A meeting of Convocation shall be summoned by the Vice-Chancellor within a month (the months of July, August, and September excepted) of the special meeting of Senate, and a motion shall be submitted to Convocation by the Vice-Chancellor that the person nominated by Senate be appointed Chancellor by Convocation.

If the person nominated by Senate be not appointed by Convocation, the Vice-Chancellor shall forthwith summon a special meeting of Senate for the purpose of nominating (in the way above set forth) a fit and proper person.

When a person nominated by Senate has been appointed by Convocation, the Senate shall make such arrangements and prescribe such ceremony for admitting to the office of Chancellor the person thus nominated and appointed as shall befit the dignity and solemnity of the occasion.

TITLE XIII.

OF THE PROCTORS.

1.—The Proctors shall be appointed at the final Convocation in Easter Term, and shall come into office at the first Convocation in Michaelmas Term.

One Proctor shall be nominated from the Durham Division, and one from the Newcastle Division of the University.

2.—On coming into office each Proctor shall nominate two Pro-Proctors, one of whom shall take his place in case of his absence ; but a Pro-Proctor nominated by either may act for the other. Each Proctor and Pro-Proctor shall make the declaration provided in the Standing Orders.

3.—In addition to their statutory duties, the Proctors shall see that nominations of the necessary examiners for University examinations are submitted to Senate, and shall certify to the University Treasurer the amount due to each Examiner. They shall also decide, on an emergency, any question connected with a University Examination which may be referred to them. The Durham Proctor may act alone in respect of an examination held at Durham, and the Newcastle Proctor in respect of an examination held at Newcastle ; but it shall be competent for either to assist, or act in the place of, the other, when requested to do so by his colleague.

4.—The Proctors shall examine the claims of candidates for degrees, and shall report to Convocation, on behalf of Senate, whether they have fulfilled the necessary requirements.

The names of those candidates who are students of the Durham Division shall be proposed to Convocation by the Durham Proctor, and of those who are students of the Newcastle Division by the Newcastle Proctor.

GENERAL REGULATIONS.

1. For candidates desiring to be admitted to the Durham Colleges, and for candidates taking part of the Examination as an Entrance Examination in Music the Examination is held in Durham (Lecture Rooms, Palace Green) in January, July, and October.

For candidates for the B.A. *in litteris antiquis* or Licence in Theology the Examination begins on a Thursday (or on the preceding day if the candidate offers Greek Testament) up to and including July, 1919; in 1918 on July 4th (or 3rd), October 10th (or 9th); in 1919 on January 16th (or 15th), July 3rd (or 2nd).

For candidates for the Modern B.A. and for Music the Examination begins on a Tuesday; in 1918 on July 2nd, and October 8th; in 1919 on January 14th, July 1st.

In October, 1919, the Examination will begin on Tuesday, October 7th, at Durham, for all classes of candidates. *See Note on p. 7.*

For candidates desiring to be admitted to the College of Medicine or to Armstrong College, the Examination is held in Newcastle in July (at Armstrong College), and September (at College of Medicine).

In 1918 the Examination in Newcastle for admission to the College of Medicine or to Armstrong College, begins on Tuesday, July 2nd, and September 17th, at 10 a.m.; in 1919 on Tuesday, July 1st, and Tuesday, September 16th.

Each Candidate who wishes to be admitted to any of the **Durham Colleges** shall, a fortnight before the examination, send his name together with the required fee, to the Head of the College which he wishes to join or to the Censor of Non-Collegiate Students.

Each Candidate in **Music** shall send to the Rev. H. Ellershaw, Secretary of Examinations, University Offices, North Bailey, Durham, *one calendar month* before the first day of the

Examination at which he wishes to present himself, a paper containing name, *in full*, the particular subjects in which he wishes to be examined, together with the required fee.

Each candidate who wishes to enter the **College of Medicine** shall send to Professor Howden, College of Medicine, Newcastle-on-Tyne, and each candidate who wishes to enter **Armstrong College**, shall send to F. H. Pruen, Esq., Armstrong College, Newcastle-on-Tyne, a paper containing name *in full*, the particular subjects in which he wishes to be examined, together with the required fee, *one calendar month* before the first day of the Examination at which he wishes to present himself.

2. Each candidate shall pay a fee of £1 10s. on each separate occasion on which he desires to be examined.

3. Candidates sending in their names after the time appointed pay an additional fee of 5s. Names of candidates sent in after the time-table is printed can only be accepted (*if at all*) on payment of an additional fee of £1. The time-table is printed a fortnight before the Examination commences.

4. No entry can be accepted unless it be accompanied by the fee, and no late entry unless it be accompanied by the extra fee required

5. No fee will be returned.

6. Candidates who have entered for the Examination may withdraw their names upon giving the Secretary nine days' notice; and in that case may enter *either* at the next Examination *or* the next but one (but not afterwards) without further payment.

7. Candidates who have withdrawn their names will have them placed on the list for the next Examination, and if candidates wish to defer being examined to the next Examination but one, they must give due notice as provided in 6 above.

8. Persons who have passed any of the Examinations recognised by the University as equivalent to its Matriculation Examination (for list see below), and who therefore wish to be excused the Matriculation Examination, must send to the Secretary of Examinations of the Durham Colleges *or* of the College of Medicine *or* of Armstrong College (as given above) according to the College which they wish to enter, proof that they have passed such Examination, together with the fee of £1 10s.

SUBJECTS OF EXAMINATION.

RELIGIOUS INSTRUCTION.—Some specified portion or portions of the Bible. For 1918, I and II Kings, *and* the Gospel of St. Luke; for 1919, Joshua, Judges, Ruth, *and* Acts I—XV. For 1920, I and II Samuel, *and* the Gospel of St. John. All to be studied in the revised version.

N.B.—The N.T. portion may be offered in Greek instead of English at Durham, but in 1919, the portion to be offered in Greek will be St. Matthew instead of Acts; in 1920, St. Mark, instead of St. John.

or ANCIENT HISTORY.—Some specified portion of Greek or Roman History. For 1918, 1919, and 1920, Greek History, 510-431 B.C. *or* Roman History, 133-44 B.C.

ELEMENTARY MATHEMATICS.—(a) Arithmetic. (b) Elementary Geometry of the triangle and parallelogram. (c) Algebra, up to and including Quadratic Equations.

To pass in this section candidates must satisfy the Examiners in (a) Arithmetic and EITHER (b) Algebra, up to and including Quadratic Equations involving one unknown quantity, OR (c) Elementary Geometry of the triangle and parallelogram, including easy deductions and practical constructions with ruler and compasses, &c.

N.B.—*Elementary Mathematics will be withdrawn after July, 1919.*

MATHEMATICS.—(a) Arithmetic. (b) Geometry of the triangle, parallelogram and circle, including the substance of Euclid, Books I, II, III, with easy deductions and practical constructions with ruler and compasses, &c. No candidate to pass who cannot make intelligent application of the subject-matter. (c) Algebra, up to and including Quadratic Equations.

EXTRA MATHEMATICS.—(a) Arithmetic, with practical application. (b) Geometry of the triangle, parallelogram, circle and similar figures, including the substance of Euclid, Books I—IV, and VI, with deductions. (c) Algebra, up to and including the Binomial Theorem for a positive integral index. (d) Trigonometry, including the solution of triangles. (e) Use of Logarithmic tables.

ENGLISH.—Composition of a short Essay. EITHER a portion of a special author or authors OR *general questions in English Literature. Grammar. Analysis and parsing.

Prescribed books. For 1918, Shakespeare, *As you like it*; Milton, Minor Poems, except *Comus* and *Lycidas*; Essays by Steele, Addison, Johnson, Goldsmith, Cowper, and Lamb (Peacock's selection, Cl. Press). For 1919, Shakespeare, *Richard II*; Milton, *Paradise Lost*, I, II; Tennyson, *Coming of Arthur*, *Holy Grail*, *Last Tournament*, *Guinevere*, *Passing of Arthur*. For 1920, Shakespeare, *Macbeth*; Milton, *Paradise Lost*, I, II; Byron, *Childe Harold*, Cantos iii, iv.

* Candidates must state their choice.

LATIN.—Grammar. Translation of short sentences from English into Latin. Translation into English of passages from books not previously specified. Translation into English of books previously specified.* For 1918, Cicero, *Pro Roscio Amerino*, or Ovid, *Tristia I*. For 1919, Caesar, *Invasion of Britain* (Gallic War iv, 20—v, 23) and Ovid, *Metamorphoses*, Book xiii, ll, 1—718. For 1920, Cicero, *Pro Roscio Amerino*, or Virgil, *Aeneid*, Book I.

N.B. For Candidates who prefer it, in place of translation from the prescribed book, further passages from books not previously specified will be set. Candidates, however, must notify their wish when sending in their names.

GREEK.—Grammar (*a*) Accidence, (*b*) the use of the cases, propositions, negatives, simple uses of the subjunctive and optative, conditional sentences and indirect speech. Translation of short sentences from English into Greek. Translation into English of passages from books not previously specified. Translation into English of books previously specified.* For 1918, either Xenophon, *Anabasis*, III, IV, or Euripides, *Hecuba*. For 1919, Xenophon, *Anabasis I*, and Euripides, *Alceste* (Sidgwick's Scenes from the Greek Dramatists). For 1920, either Xenophon, *Anabasis*, III, IV, or Euripides, *Medea*.

N.B.—For Candidates who prefer it, in place of translation from the prescribed books, further passages from books not previously specified will be set. Candidates, however, must notify their wish when sending in their names.

FRENCH.—Grammar. Translation from English into French, or the composition of an Essay in French. Translation into English of passages from books not previously specified.

GERMAN.—Grammar. Translation from English into German, or the composition of an Essay in German. Translation into English of passages from books not previously specified.

SOME OTHER LANGUAGE, approved by the Matriculation Board.†

ELEMENTARY LOGIC.—The Elements of Deductive and Inductive Logic; terms, definition and division, propositions—their opposition and interpretation, the syllogism, hypothetical arguments, fallacies, the nature of induction, its chief methods and chief sources of error. Text book recommended: Creighton's *Introductory Logic* (Macmillan) Parts i and ii. In 1919 and after, Jevons' *Elementary Lessons in Logic* (omitting lessons xxii and xxiii).

* In the case of a change of set books in languages other than English, alternative papers will be set from the old books at the Examination at which the change first comes into effect, but not afterwards.

† The following are approved by the Board:—Italian, Portuguese, Russian, Spanish, Arabic, Pali, Persian, Sanskrit, Urdu, Chinese, Hebrew. Candidates offering any of these Languages can only do so, provided (*a*) the general rules for entrance to the various Faculties are not infringed; (*b*) the Candidate pay such extra fee as will cover the expenses of the Examination.

BOTANY.—The external form and gross anatomy of flowering plants as far they can be studied with the aid of a lens. The structure and pollination of flowers. The fundamental facts of plant physiology, as derived from experiments that have been performed by the candidates themselves. The examination shall include practical questions upon common British plants.

or

ZOOLOGY.—The elementary anatomy and physiology of the Rabbit; the structure of the cell and the general microscopical structure of the tissues of the body of such an animal as the Rabbit; the elementary structure, habits, and life-history of the Amœba, the fresh-water Polype (Hydra), the Earthworm and the Frog.

PHYSICAL AND GENERAL GEOGRAPHY.—The elementary facts of the earth in its relation to the solar system. Day and night. Climate and the seasons. Eclipses. Distribution of land and water. Continental and oceanic areas. Contours. Heights and depths. Mountain and river systems. Atmosphere. Physical Characteristics. Thermometer and barometer. Climate. Rain-fall and winds. Sea: composition, temperature, waves and currents. Earth sculpture and the agents by which it is effected. Earth movements and their results. The elements of the distribution of animals and plants. Political Geography generally as dependent upon Physical Geography. The elements of the Political Geography of the British Empire, especially that of the United Kingdom. N.B.—A knowledge of the Conventional Signs used in Ordnance Maps will be required.

ENGLISH HISTORY.—The general facts of English History, a choice of questions being given. N.B.—In this paper a choice of Geographical questions illustrating the chief events in English History will be set for candidates for degrees in Engineering and Naval Architecture.

EXPERIMENTAL SCIENCE.—Measurement of length, area, and volume. The balance, and weighing. Comparison of the metric and British systems of weights and measures. Velocity, acceleration, force. The relation of mass and weight. Measurement of forces (*e.g.*, by the spring balance). Composition of two forces acting at a point. Resolution of forces. Atwood's machine, and the general laws of falling bodies. The characteristics of matter in solid, liquid, and gaseous states. The principle of Archimedes. Density and specific gravity determinations. Atmospheric pressure. The barometer. Boyle's law. General ideas of the effect of heat on matter. Measurement of temperature. Thermometers. The principle and construction of the mercurial thermometer. Changes of length, area, and volume of solids, and volume of liquids, and gases, with change of temperature. Measurement of quantity of heat, and calorimeters. Specific heat. The following in reference to ice, water, and steam: change of state, latent

heat, melting point, boiling point. Simple phenomena of heat in connection with conduction, convection, and radiation. Heat as a form of energy. Chemical and physical change; the indestructibility of matter. Elements, compounds, and mixtures; the constancy of composition of compounds. Air, oxygen and nitrogen; the discovery of the composition of air; combustion; respiration. Water; its properties and composition; natural waters; water for domestic purposes; the saline constituents of natural waters; hard and soft waters. The study of limestone, of salt, and of washing soda.

or

CHEMISTRY.—Chemical and Physical Change. Mixtures. Compounds. Elements. Formulæ. Equations. Calculations of Weights of Materials taking part in chemical reactions. Air. Oxygen. Nitrogen. Combustion. Respiration. Correction of Gas volumes for Temperature and Pressure. Water. Hydrogen. Composition of Water. Natural Waters. Water as a solvent. Sulphur—its compounds with Hydrogen and with Oxygen; Sulphuric Acid. Sulphates. Salt. Chlorine—its compound with Hydrogen: the Oxy-acids of Chlorine. Carbon. Typical Hydrides of Carbon. Oxides of Carbon. Fuel—Coal. Nitric Acid. Nitrates. Oxides of Nitrogen. Ammonia. Phosphorus. Its Hydride and Chlorides. Phosphoric Acids. Law of Constant Proportion. Law of Multiple proportion, and the Law of Volumes as illustrated by the composition of the compounds of the commoner non-metals. The Atomic Theory. Calculation of the Volumes of Gases resulting from chemical reactions. The General Physical and Chemical characters of the Metals.

or

PHYSICS.—Simple physical measurements, and the principles and uses of the apparatus required. Expansion of solids, liquids and gases due to change of temperature. Thermometry. Calorimetry. Specific Heat. Liquefaction and Solidification. Vaporization and Condensation. Ebullition. Latent Heat. Conduction, Convection and Radiation. Heat and Work. Propagation of Light. Velocity of Light. Photometry. Reflection and Refraction of Light. Formation of Images by plane and spherical mirrors and thin lenses. The prism. The spectrum. Simple phenomena of magnetism and magnetic measurements. Terrestrial Magnetism. Electrostatics. Batteries and the production of Electric Currents. Ohm's law and simple electrical measurements. Magnetic, chemical and heating effects of the electric current. Simple phenomena of electromagnetic induction.

NOTE.—Candidates in Physics should have had practical experience in a Laboratory.

ELEMENTARY MECHANICS.—Rectilinear Motion. Laws of Motion. Composition and Resolution of Vectors. Theory of Moments. Elementary Principles of Statics. Centres of Gravity of simple solids. Uniform Circular Motion.

SUBJECTS REQUIRED IN THE VARIOUS FACULTIES.

A. AT THE DURHAM COLLEGES.

ARTS (*in litteris antiquis*) AND THEOLOGY.—In order to enter on a Course of Study for a degree or licence, a student must have previously satisfied the Examiners in the following:—(1) Religious Instruction *or* Ancient History. (2) Latin. (3) Greek. (4) Elementary Mathematics. N.B.—Candidates entering in Theology must take in (1) Religious Instruction.

ARTS (other than *in litteris antiquis*).—In order to enter on a Course of Study for a degree at Durham, a student must have previously satisfied the Examiners in the following subjects:—(1) English. (2) English History. (3) Elementary Mathematics *or*, if the candidate intends to take Mathematics as a subject for the degree, Additional Mathematics. (4) Religious Instruction *or* Ancient History. (5) Latin *or* Greek. (6) French *or* German.

N.B.—Candidates entering in Theology at one of the Theological Colleges associated with the University take (1) Religious Instruction, including Greek Testament. (2) Latin. (3) Greek. (4) Elementary Mathematics (Algebra *or* Geometry only) *or* Logic.

In and after October, 1919,* all Candidates must offer six subjects (*a*) Latin, and (*b*) five other subjects—one from each of the following groups: (1) Greek *or* French *or* German; (2) Mathematics *or* Logic; (3) English *or* Greek Testament; (4) Religious Knowledge *or* Ancient History; (5) English History *or* Geography *or* any of the above subjects not already offered.

B. AT THE COLLEGE OF MEDICINE.

MEDICINE.—In order to enter on a course of study for a degree in Medicine a student must have previously satisfied the Examiners in the following subjects:—(1) Additional Mathematics. (2) English. (3) English History. (4) Physical and General Geography. (5) Latin.† (6) One subject selected from the following:—Greek. French. German.

(*The above examination is recognised by the General Medical Council for the Registration of Medical students*).

Students who have satisfied the requirements of the General Medical Council as regards Registration, in some Examination other than the Durham Matriculation, or its equivalent (for list see below), may enter on a course of study for a degree in

* Candidates taking part of the examination to qualify for admission as students in Music must pass at one and the same time in English and three other subjects, or two other subjects if one be a foreign language.

† In the case of Oriental Students, Sanskrit may be offered at the Matriculation Examination in place of Latin.

Medicine upon satisfying the Examiners of the University of Durham in any *three* of the subjects of the Matriculation Examination (exclusive of Religious Instruction and Elementary Mathematics), provided that one of them at least is a language other than English.

In the case of a student in Medicine who has studied only one year in the University, the above Regulations must have been complied with at least one year before the candidate presents himself for his final examination.

No Bachelor of Medicine shall be admitted as a candidate for the degree of Doctor of Medicine unless at some time previous to the Examination he has satisfied the Examiners for the Matriculation Examination or has passed in one of the Examinations which exempt from the Matriculation Examination either in Greek or in German.

C. AT ARMSTRONG COLLEGE.

SCIENCE, ARTS, OR COMMERCE COURSE.—In order to enter on a course of study for a degree a student must have previously satisfied the Examiners in the following subjects:—(1) Additional Mathematics. (2) English. (3) English History. (4) Three of the following subjects, of which one must be a language. (*a*) Religious Instruction, (*b*) Latin,* (*c*) Greek,* (*d*) French, (*e*) German, (*f*) Some other language to be approved by the Matriculation Board,† (*g*) Ancient History, (*h*) Extra Mathematics, (*i*) Botany or Zoology, (*j*) Physical and General Geography, (*k*) Experimental Science or Chemistry or Physics, (*l*) Mechanics.

Notes.—(1) Candidates for degrees in Arts, who do not offer Latin or Greek in their Matriculation Examination or in the equivalent accepted as exemption therefrom, will be required to pass in Latin or Greek at a subsequent Examination before entering upon the Arts Course. Similarly for Commerce, they must pass in a Modern Foreign Language.

(2) In order to enter on a course of study for a degree in Engineering Science—including Mechanical, Civil, and Electrical Engineering—and in Naval Architecture, a student must have previously satisfied the Examiners in the following subjects:—Extra Mathematics, English, English History (including Geography), Latin, or Greek or French or German, and *either* Experimental Science and Mechanics, *or* any two of the three subjects:—Chemistry, Physics, Mechanics.

* In the case of Oriental Students Sanskrit may be offered in place of Latin or Greek.

† The following are approved by the Board:—Italian, Portuguese, Russian, Spanish, Arabic, Pali, Persian, Sanskrit, Urdu, Chinese, Hebrew. Candidates offering any of these Languages are required to pay such extra fee as will cover the expense of the Examination.

SCHOLARSHIPS.

On the results of the September Matriculation Examination the following Scholarships are awarded :—

- (a) The University Medical Scholarship. Candidates must offer English, Geography, Latin, Mathematics, English History, and one or two of the following languages :— French, Greek, German. One Scholarship is vacant each year.
- (b) The Pears Scholarship (when vacant). Candidates must offer English, Latin, Additional Mathematics, Greek (if a candidate proposes to enter in Arts or Theology); Greek *or* German *or* French (if a candidate proposes to study Medicine).

Exhibitions of £20 are offered at Durham in July and October, on the results of the Matriculation Examination, to candidates who intend to read for the degree of B.A. other than *in litteris antiquis*.

The Winifred Foster Scholarship (when vacant) is offered at Durham to Women Candidates only of limited means, who must take the Matriculation Examination in the subjects required for entrance on a course of study for a degree in Arts.

EXAMINATIONS RECOGNISED AS EQUIVALENT TO THE MATRICULATION EXAMINATION (*vide* General Regulations, 8) :—

An Examination qualifying for a degree in Arts of any University of the British Empire.

Also the following provided the requirements of the Faculty which the candidate wishes to enter are satisfied :—

The Examination for Responsions of the University of Oxford.

The Previous Examination of the University of Cambridge.

The Matriculation Examination of the University of Dublin.

The Matriculation Examination or the School Leaving Examination of the University of London.

The Preliminary Examination of the Joint Board of the Scottish Universities.

The Joint Matriculation Examination of the Victoria University of Manchester, the University of Liverpool, the University of Leeds, and the University of Sheffield.

The Matriculation Examination of the University of Wales

- The Preliminary Examination of the University of Birmingham.
- The Matriculation Examination of the University of Bristol.
- The Matriculation Examination of the National University of Ireland.
- The Matriculation Examination of the University of Sydney.
- The Higher Local Examination of the University of Oxford.
- The Higher Local Examination of the University of Cambridge.
- The Senior Local Examination of the University of Durham.
- The Senior Local Examination of the University of Oxford.
- The Senior Local Examination of the University of Cambridge.
- The School Certificate Examination of the University of Durham.
- The Higher Certificate Examination of the University of Durham.
- The Higher Certificate Examination of the Joint Examination Board of the Universities of Oxford and Cambridge.
- The Schools Leaving Certificate of the Oxford and Cambridge Joint Board.
- The Leaving Certificate of the Higher Grade of the Scottish Education Department.
- The Senior Certificate or the Honour Certificate Examination of the Central Welsh Board.
- The Oxford Preliminary Examination for Students in Music [for Students in Music only].
- The War Office Examination for Certificate A.

In the Faculty of Arts, when any of the above examinations contains only a part of the subjects required, the certificate of such examination will be accepted *pro tanto*, and the candidate required to satisfy the Durham Examiners in such subjects as are not covered by the previous certificate.

For exemptions in Applied Science see the Armstrong College Calendar.

SUBJECTS OF EXAMINATION

IN THEOLOGY, ARTS, AND LAW,

1918-19.

COURSES FOR L.TH., B.D., AND D.D.

The course for the Licence in Theology includes three examinations, one for Admission, one at the end of the First Year, and one at the end of the Second Year. The subjects are as follows :—

I.—ADMISSION.

Candidates for admission as Students in Theology are required to pass the Matriculation Examination in the following subjects :—(1) Religious Instruction, (2) Latin, (3) Greek, (4) Elementary Mathematics.

All Candidates for the Licence in Theology, *including those from affiliated Theological Colleges*, are required to pass this examination or one of the recognized equivalent examinations (see the Matriculation Syllabus).

II.—FOR A LICENCE IN THEOLOGY.

The Examination for a Licence in Theology is divided into two parts, A and B. Either of these parts may be taken on the completion of not less than three terms of residence, and the remaining part at the end of six terms of residence. Graduates taking the examination after one year or one term of residence must offer Part B.

PART A.

1. **General Bible**, New Testament (Outlines).
2. **Old Testament History**. 1918: The restoration of national life in Jerusalem after the Exile, with the books of Ezra, Nehemiah, Haggai and Zechariah, i-viii. 1919 and 1920: Genesis i-xxxv.
3. **A Gospel in Greek**. 1918: St. Luke. March, 1919, to March, 1921: St. Matthew.
4. **The Articles of Religion**, i to viii, and the **Creeds**.

5. **Early Church History** to 381 A.D.
6. **Ecclesiastical Latin Author.** December, 1918: Rufinus, *Commentarius in Symbolum Apostolorum*. March, 1919, to March, 1920: Vincent of Lerins, *Commonitorium*.
7. **Latin.** A passage or passages of Latin from books not previously prescribed, for translation into English; easy English sentences to be translated into Latin; questions in Accidence and Syntax. Some of the grammatical questions will have reference to the prescribed Ecclesiastical Latin Author.

PART B.

1. **General Bible, Old Testament (Outlines).**
2. **Psalms.** From March, 1918, to March, 1919: Book i (1-41). June, 1919, to March, 1921: Ps. ii-iv, vii, viii, xv, xvi, xviii-xxiv, xxix, xxxii, xxxvii, xl, li, lx, lxviii, lxix, lxxii.
3. **Greek Testament.** December, 1918: The Epistles to the Thessalonians and the Epistle of St. James. March, 1919, to March, 1920: The First Epistle to the Corinthians and the Epistle of St. James.
4. **The Articles of Religion, ix to xxxix, and Apologetics.** Questions will be set on the history, text, and subject matter of the Articles.
5. **English Church History.** (From the earliest times to the accession of Queen Anne).
6. **The Book of Common Prayer.**
7. **Hellenistic Greek.** A passage or passages, from books not previously prescribed, for translation into English; easy English sentences for translation into Greek; questions in Accidence and Syntax. (The scope of this paper is indicated by Nunn, *A short Syntax of New Testament Greek* and *Elements of New Testament Greek*.)

Candidates at the end of their third term taking either Part A or Part B may offer one or two (but not more than two) of the following:—Elementary Hebrew Grammar; Vergil, *Aeneid*, II, IV, VI; Euripides, *Ion*.

In the second examination (Part A or Part B) taken at the end of the sixth term, distinction will be assigned to candidates who, in addition to shewing an adequate knowledge in the papers as prescribed above, also satisfy the Examiners that they are worthy of distinction in one or two (but not more than two) of the following subjects:—

- (a) Hebrew. 1918: Nehemiah, chs. i, ii, iv-vi, viii, ix.
1919: Genesis, i-iii, vi-ix.

- (b) Latin and Greek (one paper). Prescribed Books :—Livy, Book xxii, Demosthenes, *Olynthiacs*.

N.B.—In June, 1920, Livy i will be substituted for Livy xxii.

- *(c) Mathematics.
- *(d) Logic.
- *(e) English Language and Literature.
- *(f) French.
- *(g) German.
- (h) The Elements of Economics.

No L.Th. can become a Candidate for Honours or for the Theological Special in the Final B.A. until he has passed the First Public Examination in Arts.

All candidates for M.Litt. must take the examination who have not either (1) obtained distinction, or been placed in Division I in the Final Examination for the degree of B.Litt., or (2) proceeded to the degree of B.A. before or after passing the Final Examination for B.Litt.

* See Note on next page.

All persons who have proceeded to the degree of M.Litt. are allowed to proceed to the degree of M.A. on passing the M.A. Examination, provided that no candidate shall be allowed to present himself for the degree of M.A. in the same department of study in which he presented himself for the Degree of M.Litt. For all such candidates the fee for examination is £5 on the first occasion and £1 10s. for subsequent examination.

* NOTE.

Under certain conditions as to invigilation, &c. (which must be approved by the Board of the Faculty of Arts) the Examination for M.A. or M.Litt. may be held abroad. The fee for examination abroad is £3. Application should be made at least six months beforehand to the Secretary of Examinations.

MUSIC.

All Candidates, not Graduates in Arts of some University in the United Kingdom, must have obtained the Testamur of Admission as Students in Music (see p. 45).

FIRST EXAMINATION FOR THE DEGREE OF BACHELOR OF MUSIC.

(1) Harmony ; (2) Counterpoint, in not more than four parts.

FINAL EXAMINATION FOR THE DEGREE OF BACHELOR OF MUSIC.

(1) Harmony in not more than five parts (of a Figured Bass and also of a given Melody); (2) Counterpoint in not more than five parts; (3) Fugue, Canon, and Form (A Fugue, in not more than four parts, to be composed on a given subject; a Canon to be continued for a certain number of bars; explanations of musical Forms to be given); (4) History of Music.

The Special Subjects for the *viva voce* portion of the Examination are the full Scores of certain selected works, announced beforehand to those persons who make application, and who are eligible for the Final Examination.

No one will be admitted to the Final Examination who has not passed the First Examination and sent in an exercise to the Examiners, on or before a date to be announced from year to year, and from them received permission to be admitted.

(1) This exercise (which may be either a sacred or secular work) is to consist of four movements only :—A five-part Chorus (with a

short Introductory Symphony); an unaccompanied Quartet; a Solo; a five-part Choral Introduction and Fugue. (2) The accompaniments are to consist of those for the usual string-band only, and must show skill and independent features.

As an alternative to the above exercise candidates are now allowed to offer a composition consisting of the first and fourth movements only if they also offer themselves for examination on the Piano *or* the Organ *or* a Stringed Instrument of the Violin Family. Candidates will be required to satisfy the Examiners (a) in playing specified Compositions; (b) in playing at sight; (c) in improvising on a given Theme. The prescribed works are as follows:—

Organ: Bach, Prelude and Fugue in B minor (Novello Bk. vii, p. 52), and *either* Sir H. Parry's Choral Prelude, on St. Anne's tune (Novello); *or* Harwood's First Sonata, Op. 5 (First Movement only), Schott.

Pianoforte: Beethoven, Sonata No. 16, Op. 31, No. 1, and *either* Schumann, Intermezzo and Finale Faschengeschwank, Op. 26; *or* Debussy, Preludes, Book 1, Nos. 4 and 8.

Violin: Rode, Study No. 15 from 24 Caprices (Peters, 284), Beethoven, Sonata No. 5, in F major (First Movement), and Stanford, Reel, Op. 54, No. 6.

EXAMINATION FOR THE DEGREE OF DOCTOR OF MUSIC.¹

(1) Harmony; (2) Counterpoint (each of these including examples in eight parts); (3) Imitation, Canon and Fugue; (4) Form; (5) Instrumentation; (6) History of Music; (7) Elementary Acoustics; (8) Knowledge of the scores of the standard works of the great composers.

The Exercise, which must not be presented for examination until the candidate is of thirteen terms' standing from the Bachelor's Degree, must consist of a Vocal Composition, sacred or secular, in not less than six movements. It must contain good eight-part choral writing and a fugue in not less than five parts. It must be preceded by an Overture, must be scored for full orchestra, and should take about forty minutes to perform.

¹ No grace for the Degree of Doctor of Music shall be granted unless the petitioner shall be of fifteen terms' standing, and shall have composed an exercise and passed an examination in Music.

FOR THE DIPLOMA IN THE THEORY AND PRACTICE OF TEACHING.

1. Candidates before beginning the course for the Diploma must be graduates of some University in the United Kingdom, or must have obtained one of the qualifications recognized by the Board of Education in "The Regulations for the Training of Teachers for the Secondary Schools."

2. The course of study must extend over at least three terms, and must include attendance upon prescribed courses of lectures in the University, and practical work in recognized schools.

3. The Examination for the Diploma is divided into two parts :—

Theory, see 4.

Practice, see 5.

4. *Theory.* Candidates are required to pass written examinations in the following :—

The study of children during the school period as regards

1. Health and physical development.

2. Mental and moral development.

The principles of Education, including the application of Psychology, Ethics, and Logic. *One paper.*

A prescribed period in the history of Education, with set books. *One paper.*

1918 and 1919.—Educational development in the Nineteenth Century.

Class and school management. The preparation of school lessons. Method in school. The teaching of the ordinary school subjects. Special method in at least one special subject. *One paper.*

In addition each candidate shall during the final term prepare and present to the examiner an essay on some special subject of school work.

5. *Practice.* Candidates must attend approved schools for purposes of practice. The time spent in connection with a class under proper supervision must not be less than 60 school days, and two-thirds of this time must be in an approved Secondary School.

Candidates are to be tested in *practice*

By reports from the teacher of the school in which the student has practised, and from the Professor or Lecturer in Education; and by giving one or more lessons before the examiners, and by submitting to the examiners records of school work.

Unless specially exempted a candidate must include in his course a special study of the teaching of one definite branch of the curriculum of a Secondary School. Success in this particular work will be recorded upon the Testamur.

6. The examiners are to publish the names of the successful candidates in Theory and in Practice in alphabetical order, and to indicate, by distinguishing marks placed against their names, the candidates (if any) who excel in the written or practical parts of the examination, or both. Distinctions will be recorded on the Diploma. Candidates must present themselves for both parts of the examination, but candidates who pass in Theory may be allowed subsequently to present themselves for the practical examination without undergoing a further examination in Theory.

7. Candidates before entering for the examination must present certificates of satisfactory attendance in Theory and Practice, and must pay a fee of £3.

8. The University will deliver the Diploma to candidates who have passed both portions of the examination upon payment of a fee of £3. For Graduates of Durham the fee is £1.

FOR THE DIPLOMA IN FOREIGN LANGUAGES.

The examination for a Diploma consists in reading, conversation, dictation and oral and written reproduction of a passage read by one of the Examiners.

Candidates must possess ready comprehension, fluent expression and correct pronunciation.

All graduates of the University in Arts, Letters, or Commerce are admissible to this test, provided that they have satisfied the Examiners in the written part of the B.A., B.Litt., or B.Com. examination in the language which they offer. If the candidate has not satisfied in such language at his degree examination he may be admitted for the purpose of this Diploma on a subsequent occasion to the written examination in that language.

The examination is held in the December of each year.

MEDICAL COURSE.¹

FIRST EXAMINATION FOR THE DEGREE OF BACHELOR OF MEDICINE.

1. Elementary Anatomy :—

Bones, joints, and ligaments of the body. The muscles of the extremities.

2. Chemistry :—

(a) General characteristics of chemical action. Conditions under which chemical changes take place. Difference between mechanical mixtures and chemical compounds. Difference between elementary and compound substances. Explanation of chemical symbols, formulae, and equations. Calculation of quantities of materials necessary to produce or resulting from given chemical reactions.

Characteristics of acids, bases, and salts. Nomenclature. Laws of chemical combination. Combination of gases by volume. The atomic theory. Molecules and molecular weights. Avogadro's hypothesis. The general properties of gases.

The non-metallic elements and the compounds they form. The Atmosphere. Combustion. Ventilation. The general properties of the more common metals and their compounds.

(b) Organic Chemistry :—

Difference between organic and inorganic compounds. Methods of determining the composition, molecular weights and constitution of compounds.

The hydrocarbons and their derivatives, more especially their oxidation products—alcohols, aldehydes, ketones, and acids. The polyhydric alcohols. Glycerol and the fats. The carbohydrates.

Benzene and its more important derivatives.

The simpler chemical constituents of vegetable and animal organisms.

(c) Practical Chemistry :—

• The preparation and qualitative analysis of simple salts. Simple quantitative experiments, *e.g.*, the determination of equivalents ; volumetric analysis.

The preparation and reactions of the more important organic compounds.

¹ For full information see the Calendar of the College of Medicine, which can be obtained from the Secretary of that College.

3. Physics :—

- (a) EXPERIMENTAL MECHANICS.—Laws of motion considered experimentally, and simple applications. General properties of solids, liquids, and gases, treated in an elementary manner.
- (b) HEAT.—Thermometry. Coefficients of expansion. Calorimetry. Change of state. Hygrometry. Conduction, convection, and radiation.
- (c) MAGNETISM AND ELECTRICITY.—Simple phenomena in magnetism. Batteries : their constitution and use. The magnetic, chemical, and heating effects of the electric current, Ohm's Law, simple phenomena of induced currents. Elementary phenomena in electrostatics.
- (d) OPTICS.—Propagation, reflection, and refraction of light. Formation of images by mirrors and lenses. The prism.
- (e) PRACTICAL PHYSICS.—Candidates will be expected to be familiar with the use of simple physical instruments, and to perform simple experiments in experimental mechanics, heat, electricity, and optics.

4. Elementary Biology :—

- (1) The distinctive properties of living and non-living bodies.—The general conditions favourable and unfavourable to Life.

The structure, growth, and chemical composition of the cell-wall, protoplasm, and nucleus. The properties of protoplasm. The growth, modification, and division of cells. Formation of tissues. Division of labour. The elements of vegetable Physiology treated experimentally.

- (2) The differences between Animals and Plants.
- (3) The structure, morphology, physiology, and life-histories of :—*Saccharomyces* (Yeast); *Bacterium*; *Penicillium* (Mould); *Pythium*; *Haematococcus*; *Spirogyra*; *Fucus* (Brown seaweed); Fermentation; Putrefaction.
- (4) The anatomy, morphology, and physiology of the flowering plant as illustrated by a consideration of the structure and functions of stem, leaf, and root. The various parts of the flower and their functions. Fertilization. Germination of seeds.
- (5) The general characteristics of invertebrate and vertebrate animals.

- (6) The morphology, physiology, and life-histories, of the Invertebrata as exemplified by the study of *Amoeba*, *Vorticella*, *Hydra*, *Lumbricus* (Earthworm), *Tænia*, *Nephrops* (Norway Lobster).
- (7) The morphology and physiology of the Vertebrata as exemplified by the study of *Amphioxus*, *Raia* (Skate), *Rana* (Frog), and *Lepus* (Rabbit).
- (8) The elementary principles of animal embryology, as illustrated by a study of the general developmental history of *Amphioxus*, *Rana*, and *Gallus*.
- (9) Practical Biology.—Candidates will be required to show a practical acquaintance with the animals and plants mentioned above; they will be expected to make dissections of the animals and expose the various important organs, and to make preparations to illustrate the structure of the various plants. Candidates are required to bring their own microscopes, razors, and dissecting instruments, for this examination.

SECOND EXAMINATION FOR THE DEGREE OF BACHELOR OF MEDICINE.

1. Anatomy :—

In addition to a general knowledge of the subject as tested by the written part of the examination, each candidate will be required to make a dissection on the recent subject. In the *viva voce* examination he will also be required to recognize parts on recent or prepared dissections, and to answer questions on bones, joints, etc. He must also have a knowledge of the more important facts regarding the development of the various systems.

2. Physiology :—

In addition to the written paper, the candidate will be subjected to a practical examination comprising (a) in chemical physiology, identification of commonly occurring proximate principles and demonstration of properties of body secretions; (b) in experimental physiology, the performance of simple experiments and explanation of use of apparatus; (c) in histology, methods of preparation in common use, with recognition of specimens under the microscope.

THIRD EXAMINATION FOR THE DEGREE OF BACHELOR OF MEDICINE.

1. Materia Medica, Pharmacology and Pharmacy :—

The action of drugs and their active principles on the various tissues of the body. The physical and chemical characteristics of drugs derived from the inorganic kingdom, and of the active principles of drugs derived from the organic kingdom.

The official preparations of the more important drugs. The essential ingredients in the more important preparations and the proportion of these ingredients. The ordinary doses of the principal drugs and their preparations.

2. (a) Pathology :—

In the written examination the candidate's knowledge of the principles of general and special pathology will be tested. In addition to the *viva voce* examination, a practical examination will be conducted in which the candidate will be tested in elementary pathological methods, and in the description of naked eye and microscopical pathological specimens. The candidate will also be expected to be familiar with the mode of conducting post-mortem examinations.

(b) Elementary Bacteriology :—

Candidates will be expected to possess a competent knowledge of bacteriology and parasitology, in so far as these are applicable to disease in man.

In addition to the written and *viva voce* examination candidates will be examined practically in the element of bacteriological technique.

3. Medical Jurisprudence :—

Law affecting the medical profession. Obligations of medical men as witnesses. Forms of evidence. Courts. Dying declarations. Wills. Certificates of death. Malapraxis. Identity. Signs of death. Modes of Death. Wounds. Assaults. Murder. Manslaughter. Homicide. Pregnancy. Delivery. Birth. Sex. Foeticide. Infanticide. Concealment of birth. Rape. Impotence. Sterility. Legitimacy. Inheritance. Survivorship. Life assurance. Accident assurance. Compensation for injuries. Medico-legal post-mortem

examinations. Examination of stains and fabrics. General principles of toxicology. The mode of action, symptoms and treatment of the more important poisons.

4. Public Health :—

Sanitary medicine.—General mortality, and its principal features (statistical and other). Zymotic diseases. Epidemic and endemic diseases. Epizootic and enzootic diseases, and their relation to human diseases. Hygiene in relation to meteorological and topographical conditions, climate, air, water, food, clothing, occupation.

Practical Hygiene.—The dwelling (site, foundations, structure, etc.). Water supply; ventilation and cubic space; warming and lighting. Conveniences. Drains, sewers. Refuse disposal, destructors. Sewage disposal and treatment. Sewerage works. Hospitals for infectious diseases. Disinfection. Vaccination.

FINAL EXAMINATION FOR THE DEGREE OF
BACHELOR OF MEDICINE.

Medicine, clinical medicine and psychological medicine.

Surgery and clinical surgery.

Midwifery, gynæcology and clinical gynæcology.

Therapeutics.

Diseases of the throat, nose and ear; diseases of the skin; diseases of children; and diseases of the eye.

EXAMINATION FOR THE DEGREE OF BACHELOR
OF SURGERY.

Surgical operations.

Surgical instruments.

Surgical anatomy.

Splints and bandages.

EXAMINATION FOR THE DEGREE OF MASTER
OF SURGERY.

Surgery.

Surgical pathology.

Surgical anatomy.

Surgical operations.

Clinical surgery.

EXAMINATION FOR THE DEGREE OF DOCTOR OF MEDICINE.

Examination on the subject of an essay written by the candidate, and on the other subjects of the curriculum, so far as they are related to the subject of the essay.

EXAMINATION FOR THE DEGREE OF DOCTOR OF MEDICINE FOR PRACTITIONERS OF FIFTEEN YEARS' STANDING.

Principles and practice of medicine, clinical medicine, psychological medicine, hygiene, and therapeutics.
Principles and practice of surgery, clinical surgery.
Midwifery and diseases of women and children.
Pathology (medical and surgical).
Anatomy (medical and surgical).
Medical jurisprudence and toxicology.
Arts.

EXAMINATION FOR THE DEGREE OF BACHELOR OF HYGIENE AND FOR THE DIPLOMA IN PUBLIC HEALTH.

Sanitary chemistry.
Physics.
Comparative pathology, bacteriology, etc.
Sanitary legislation.
Vital statistics.
Meteorology, climatology, etc.
Nosology.
Sanitary medicine.
Practical hygiene.

EXAMINATION FOR THE DEGREE OF DOCTOR OF HYGIENE.

The claims of a candidate for this degree are investigated by two examiners who shall report to the Board of the Faculty of Medicine on the qualifications of the candidate, basing their report upon the candidate's distinction in special research or learning. The candidate must state the Special Subject, upon a knowledge of which he bases his qualifications, forwarding at the same time a thesis and such other evidence of his contributions to the advancement of hygiene as may support his application. The examiners shall examine the candidate *viva voce* on such contributions.

FOR THE LICENCE IN DENTAL SURGERY.

Chemistry.
 Physics.
 Dental mechanics (theoretical and practical).
 Dental metallurgy.
 Anatomy.
 Physiology and histology.
 Dental anatomy and dental histology.
 Dental materia medica.
 Surgery.
 Dental surgery, including prosthetics and orthodontia.
 Operative dental surgery (practical examination).
 Dental pathology and bacteriology.

FOR THE DIPLOMA IN PSYCHIATRY.

Part 1.

Anatomy.
 Physiology.
 Pathology.
 Bacteriology.

Part 2.

Psychology.
 Experimental psychology.
 Neurology and psychiatry (systematic and clinical).

COURSES IN SCIENCE.*

FOR THE PASS DEGREE OF B.Sc. IN
PURE SCIENCE.

FIRST YEAR.

Any four of the following subjects :—Mathematics (Pure and Applied), Physics, Chemistry, Geology, Biology, Military Science, provided that candidates who offer Military Science (Part I) shall be required to offer at least two of the three subjects, Mathematics, Physics, Chemistry.

The following particulars give some idea of the scope of the various subjects :—

(a) MATHEMATICS.

Euclid : Books I-IV, VI.

Theory of Arithmetic.

Algebra, including Binomial Theorem and Logarithms.

Trigonometry, including the solution of triangles.

The Elementary Laws and Principles of Mechanics.

(b) PHYSICS.

Experimental Mechanics, including Hydrostatics and Pneumatics.

The Elementary Phenomena of Heat, Sound, Light, Electricity, and Magnetism, treated experimentally.

Practical examination.

(c) CHEMISTRY.

General Principles of Chemistry.

Elements of Inorganic Chemistry.

Practical examination.

(d) GEOLOGY.

Physical Geology and Elementary Petrology.

British Historical Geology.

(e) BIOLOGY.

Zoology.—Elementary Morphology, Life-histories and Classification of Animals.

* The Regulations for Degrees in Science are given in Title V, Sections X XI, XII ; see pp. 56-65.

Practical examination on the following types :—Amœba, Paramecium, Vorticella, Hydra, Lumbricus, Periplaneta, Nephrops, Anodonta, Amphioxus, Raia, Rana, Lepus.

Botany.—The Elements of Morphology and Histology as exemplified by the various types of the Vegetable Kingdom.

The fundamental principles of the Nutrition and Reproduction of Plants treated experimentally.

Outline of Classification.

Practical examination.

(f) MILITARY SCIENCE. Part I. (See p. 170).

SECOND YEAR.

Students are required to state in writing at the commencement of their second year which are the two Chief subjects and which is the Third subject they select.

(1) *Mathematics.*

Conic Sections.

Differential Calculus.

The rudiments of Integral Calculus.

Statics (for co-planar forces).

Dynamics.

More advanced questions will also be set in Algebra and Trigonometry.

(2) *Physics.*

The subjects of the First B.Sc. Examination in Physics, and in addition :—

The definition of Physical Quantities.

Simple Physical Measurements.

The Laws of Motion and their applications.

The principles of the Conservation of Energy and of the Dissipation of Energy.

Heat: Thermometry and Calorimetry. Change of State. Conduction, Convection and Radiation. Mechanical Equivalent of Heat.

Sound: Phenomena of Sound treated experimentally.

Light: Reflection and Refraction of Light. Mirrors and Lenses. Optical description of the Eye. The Microscope. The Telescope. Dispersion. The Spectroscope and Spectrum Analysis. Measurement of the Velocity of Light. Photometry.

Magnetism: Properties of Magnets. The Magnetic Field. The Magnetic Qualities of Iron and Steel. Terrestrial Magnetism.

Electricity: The Production of the Electric Current. Various forms of Batteries. The Magnetic, Chemical, and Heating Effects of the Current. Measurement of Resistance, Electromotive Force, and Current Strength. Ohm's Law. The Electro-magnet. The Magnetisation of Iron. Electro-magnetic Induction. The Induction Coil. The Fundamental Principles of Dynamos and Electric Motors. Thermo-electricity. Simple Phenomena of Electrostatics.

Proficiency in Elementary Physical Measurements will be tested by a practical examination.

(3) *Chemistry.*

The subjects of the First B.Sc. Examination in Chemistry, and in addition :—

The Metals and their more important compounds.

Advanced study of the Non-Metals.

Outline of Organic Chemistry.

Qualitative Analysis, including a practical examination.

Elements of Quantitative Analysis, including a practical examination.

(4) *Geology.*

Physical Geology.

Historical Geology.

Elementary Palæontology and Petrology.

(5) *Zoology and Comparative Anatomy.*

The subjects of the First B.Sc. Examination in Zoology, and in addition :—

The Morphology, Physiology, Development, Distribution and Classification of Protozoa and Invertebrate Metazoa.

Practical examination.

(6) *Botany and Vegetable Physiology.*

The general Morphology and Anatomy of Plants.

The Structure and Life-histories of the more important types of Algae; Fungi; Mosses and Liverworts; Ferns and Fern Allies; Gymnosperms and Angiosperms.

The important British Natural Orders.

The principles of Plant Physiology.

The factors determining the Character and Distribution of the British Flora.

Practical examination.

(7) *Animal and Human Physiology.*

The elements of general Physiology, including the functions of the cell.

The functions of the circulatory, respiratory, digestive, excretory, muscular, nervous and reproductive systems.

The special senses ; instabolism ; internal secretion ; animal heat and its regulations ; blood and lymph.

The minute structure of the more important organs and tissues of the body.

A practical course of chemical and experimental Physiology.
Practical examination.

THIRD YEAR.

(1) *Mathematics.*

Conic Sections.

Differential and Integral Calculus.

Differential Equations.

Analytical Geometry of Three Dimensions.

Statics.

Dynamics of a Particle.

Rigid Dynamics.

(2) *Physics.*

A knowledge of the subjects of the Examination in Physics as a second year subject will be assumed, and questions of a more difficult nature will be set in them.

Candidates will also be expected to show an experimental knowledge of :—

The Physical Properties of Solids, Liquids, and Gases.
Elasticity. Capillarity.

Heat, including the Laws of Thermodynamics.

Sound.

Light.—The Wave Theory ; explanation of Reflection and Refraction. Phenomena of Interference and Diffraction. Double Refraction and Polarisation of Light. Theories of Optical Instruments.

Magnetism.—Magnetic Measurements. Diamagnetism.

Electricity.—The Principles and Methods of Electrical Measurement and Testing. Construction of Electrical Standards. Absolute Electrical Measurements. Electrolysis.

The Principles of the Practical Applications of Electricity.

Practical examination in Physical Measurements.

(3) Chemistry (Inorganic, Organic and General).

The subjects of the examination will be Inorganic Chemistry, Organic Chemistry and the outlines of Chemical Philosophy and General Chemistry.

Practical Chemistry.—Candidates will be required to hand in their Laboratory Journals, duly initialled by the Professor, and to submit to such further tests of their knowledge of Qualitative and the Principles of Quantitative Analysis as the Examiners may require.

(4) Geology.

Including the following departments :—

Physical Geography.—The operation of Geological Agents, the production of Climate, and the distribution of Vegetable and Animal Life.

Descriptive Geology.—With special reference to the History and Arrangement of the Rock-formations of the British Islands.

Palæontology.—Especially as regards the Nature and Distribution in time of the more important orders and genera of the fossil Flora and Fauna of the British Islands.

Economic Geology.—Its relations to Agriculture, Mining, Architecture, and the more important Arts and Manufactures.

Petrology.—The Origin, Relative Position, Structure, and Texture of the Rocks.

(5) Zoology and Comparative Anatomy.

The Morphology, Physiology, Embryology, Distribution and Classification of Vertebrata.

Theories of Evolution and of the Philosophical problems of Zoology.

Practical examination. (Dissections outside of the ordinary routine of Laboratory work may be required).

(6) Botany and Vegetable Physiology.

More advanced treatment of subjects included in Botany taken as a second year subject.

The Morphology, Anatomy and Histology of Plants considered from a physiological standpoint.

The Physiology of Plants.

Vegetable Pathology.

The Elements of Palæobotany.

The Structure and Mode of Action of Bacteria.

The Classification of the Vegetable Kingdom including the phyllogeny of the various Groups.

Considerations of Plant Ecology with special reference to the influences determining the Character and Distribution of the British Flora.

Outlines of the History of Botany.

Practical examination.

(7) *Animal and Human Physiology.*

Special knowledge of some selected branch of Physiology will be required in addition to a more detailed knowledge of all the branches of Physiology taken as a second year subject.

SECOND OR THIRD YEAR.

Crystallography.

The fundamental law of Geometrical Crystallography, Properties of Zones and the Anharmonic Formula, Stereographic Projection. The Laws of Crystal Symmetry, the Thirty-two Types and their Grouping. Crystal Aggregates, Twins and Mimetic Crystals. Problems in Crystallography. Isomorphism, Polymorphism. The principal optical properties of crystals, and the methods of discriminating between the various systems.

Practical work includes the study of models of the types of symmetry, and crystals will be measured and worked out. The goniometers of Carangeot, Maskelyne, Miers and Fuess will be explained.

Mineralogy.

The principles of Crystal Symmetry. Physical characters, including :—Elasticity, Cleavage, Glide Planes and Hardness, Selective Action of Solvents, Thermal, Electrical and Optical Properties. Chemical Composition. Pseudomorphs.

The practical work includes the classification of minerals and the examination of the following species :—

Copper, Gold, Diamond, Sulphur, Galena, Blende, Cinnabar, Chalcopyrite, Fahlerz, the more important members of the Pyrites and the Mispickel groups, Halite, Fluorite, Quartz, Cuprite, Corundum, Hematite, Spinel, Magnetite, Cassiterite, Rutile, Götthite, Manganite, the Calcite and Aragonite groups, the Felspar, Pyroxene, Amphibole and Garnet groups, Zircon, Topaz, Tourmaline, Natrolite, Stilbite, Chabazite, Muscovite, Biotite, Apatite, the Barytes group, and Gypsum.

The use of the Dichroscope, Optic Angle Measurer, Polariscopes, Quartz Wedge and Mica Plate will also be taught.

Students are required to attend the special course of instruction on Blowpipe Analysis and Determinative Mineralogy.

Logic.

Education.

PART I.

The Logical and Psychological bases of Education.

The main principles of teaching founded upon the above and upon School Experience.

School Hygiene and Physical Exercises.

Discipline and Class Management.

The Organization and Administration of English Schools, the various types of Schools and Colleges and their inter-relation.

PART II.

(i) An Essay based on the study of some special subject or question, either (a) from books or (b) from visits paid to schools. The subject to be chosen by each student and to be approved at the beginning of the session.

(ii) 1918 and 1919. Educational development in the Nineteenth Century.

The Practice of Teaching. Candidates will be required to produce certificates of attendance and competency from the teachers concerned.

Military Science.—Part II. (See p. 170).

FOR THE PASS DEGREE OF B.Sc. IN
APPLIED SCIENCE.

FIRST YEAR (Agriculture).

Candidates may offer the same subjects as for Pure Science provided that Chemistry and Biology are included in their selection.

FIRST YEAR.

(Engineering, Naval Architecture, Mining and Metallurgy).

Candidates are required to present the subjects, Mathematics (Pure and Applied), Physics, Chemistry, Applied Mechanics and Mechanical Drawing. The last two being treated as one subject.

SECOND YEAR.

SECTION A.—Agriculture.

Group I.

(a) Agriculture, Part I.

(b) Organic and Agricultural Chemistry.

Group II.

- (a) Agricultural Botany.
- (b) Anatomy and Physiology of Farm Animals, and Entomology.
- (c) Land Surveying.
- (d) Agricultural Geology or Military Science.

SECTION B.—Mechanical Engineering.

Group I.

- (a) Junior Engineering.
- (b) Mechanical Drawing.
- (c) Junior Engineering Laboratory.

Group II.

- (a) Senior Physics.
- (b) Junior Electrical Engineering.
- (c) Mathematics.

SECTION C.—Marine Engineering.

Group I.

- (a) Junior Engineering.
- (b) Mechanical Drawing.
- (c) Junior Engineering Laboratory.

Group II.

- (a) Senior Physics.
- (b) Junior Naval Architecture.
- (c) Mathematics.

SECTION D.—Electrical Engineering.

Group I.

- (a) Electrical Engineering.
- (b) Junior Electrical Engineering Laboratory.

Group II.

- (a) Junior Engineering—Engineering Laboratory.
- (b) Mechanical Drawing.
- (c) Senior Physics.
- (d) Mathematics.

SECTION E.—Civil or Military Engineering.

Group I.

- (a) Junior Civil Engineering.
- (b) Junior Engineering.
- (c) Engineering Drawing.

Group II.

- (a) Junior Engineering Laboratory.
- (b) *either* Junior Geology (for students in Civil Engineering).
or Military Science, Part I (for students in Military Engineering ; see p. 170).
- (c) Surveying.*
- (d) Mathematics.

SECTION F.—Naval Architecture.

Group I.

- (a) Junior Naval Architecture.
- (b) Junior Ship Drawing and Calculations.

Group II.

- (a) Senior Physics.
- (b) Junior Engineering—Engineering Laboratory.
- (c) Mathematics.

SECTION G.—Mining.

Group I.

- (a) Junior Geology.
- (b) Economic Mineralogy.
- (c) Mineral Deposits.

Group II.

- (a) Junior Engineering—Engineering Laboratory.
- (b) Mechanical Drawing.
- (c) Chemistry.

SECTION H.—Metallurgy.

Group I.

- (a) General Metallurgy.
- (b) Economic Mineralogy.
- (c) Chemistry.

Group II.

- (a) Junior Engineering—Engineering Laboratory.
- (b) Mechanical Drawing.

THIRD YEAR.

SECTION A.—Agriculture. (Professional Subject, "Agriculture,"
Group 1.)*Group I.*

- (a) Agriculture, Part II.
- (b) Estate Management.
- (c) Farm Accountancy.

* The Easter Surveying Field Week forms part of this course.

Group II.

- (a) Agricultural Chemistry.
- (b) Agricultural Botany.
- (c) Pathology and Farm Hygiene.
- (d) Forestry.
- (e) Agricultural Engineering.

SECTION B.—Mechanical Engineering and Marine Engineering
(Professional Subject, "Engineering," Group I.)*Group I.*

- (a) Advanced Engineering.
- (b) Senior Engineering.
- (c) Mechanical Drawing.
- (d) Engineering Laboratory.

Group II.

- (a) Special Mathematics.
- (b) Metallurgy.

SECTION C.—Electrical Engineering. (Professional Subject,
"Electrical Engineering," Group I.)*Group I.*

- (a) Senior Electrical Engineering.
- (b) Electrical Engineering Laboratory.
- (c) Strength of Materials.

Group II.

- (a) Advanced Engineering.
- (b) Mechanical Drawing.
- (c) Engineering Laboratory.
- (d) Special Mathematics.

SECTION D.—Civil or Military Engineering. (Professional
Subject, "Civil Engineering," Group I.)*Group I.*

- (a) Senior Civil Engineering.
- (b) Senior Engineering.
- (c) Special Drawing.
- (d) Surveying.*

Group II.

- (a) Engineering Laboratory.
- (b) *either* Practical Geology (for students in Civil Engineering).
or Military Science, Part II (for students in Military Engineering; see p. 170).
- (c) Special Mathematics.

* The Easter Surveying Field Week forms part of this course.

SECTION E.—Naval Architecture. (Professional Subject, "Naval Architecture," Group I.)

Group I.

- (a) Senior Naval Architecture.
- (b) Senior Ship Drawing and Calculations.
- (c) Strength of Materials.

Group II.

- (a) Metallurgy.
- (b) Engineering Laboratory.
- (c) Special Mathematics.

SECTION F.—Mining.* (Professional Subject, "Mining," Group I.)

Group I.

- (a) Mining.
- (b) Surveying.†

Group II.

- (a) Dressing of Minerals.
- (b) Metallurgy.
- (c) Senior Engineering.
- (d) Electrical Engineering.

SECTION G.—Metallurgy. (Professional Subject, "Metallurgy," Group I.)

Group I.

- (a) Metallurgy.
- (b) Assaying.

Group II.

- (a) Dressing of Minerals.
- (b) Chemistry (Organic and Gas Analysis).
- (c) Senior Engineering.
- (d) Electrical Engineering.

Distinction may be awarded in the Final Examination in the Professional Subject only.

* Students must show sufficient knowledge of both Coal and Metal Mining. Before being presented for a degree they must also produce satisfactory evidence that they have spent a period of not less than four months altogether in or about a mine, with the object of acquiring a practical insight into the elements of their future profession.

† The Easter Surveying Field Week forms part of this course.

FOR THE DEGREE OF B.Sc. IN PURE SCIENCE WITH HONOURS.

MATHEMATICS.

(i) *Pure* :—

Algebra, Plane Trigonometry, Elements of Theory of Equations, Elements of Infinitesimal Calculus, Pure and Co-ordinate Geometry of Conics, Spherical Trigonometry.

Theory of Equations, Infinitesimal Calculus, Co-ordinate Geometry of three dimensions as far as the treatment of the Quadric, Elements of Differential Equations.

Co-ordinate Geometry of three dimensions, Higher Plane Curves, Elements of Theory of Algebraic Forms, Elements of Theory of Functions.

(ii) *Applied* :—

Statics, Dynamics, Hydrostatics.

Analytical Statics, Rigid Dynamics, Elements of the Theory of Vibrations.

Advanced Rigid Dynamics, and one of the following divisions :—

(a) Hydrodynamics, Sound, Elasticity.

(b) Attractions, Electricity, Optics.

The examination to consist of 8 papers.

PHYSICS.

The general study of the subject with special attention given to one particular section of Physics.

The examination to consist of four written papers, one of these written papers being on some special section of Advanced Physics. Practical Examination of 12 hours.

CHEMISTRY.

Inorganic, Organic, Analytical, Physical Chemistry, and the History of Chemistry.

The examination to consist of four written papers, one of which will deal with a special department of Chemistry selected by the candidate with the approval of the Head of the department. Practical Examination of 18 hours.

GEOLOGY.

Geology, Palæontology, Petrology, with special attention to one particular section of the subject.

The examination to consist of three papers and one special paper. Practical examination of 9 hours.

CRYSTALLOGRAPHY AND MINERALOGY.

Crystallography, Physical Mineralogy, Chemical Mineralogy, Descriptive Mineralogy.

The examination to consist of four papers. Practical examination of 8 hours.

Each student will be required to measure a crystal on the goniometer and determine its symmetry.

ZOOLOGY.

Zoology, Palæozoology, Morphology, Physiology, and the History of Zoology with a knowledge of a special section.

The examination to consist of three papers. Practical examination of 12 hours.

BOTANY.

Classification and Anatomy, Physiology, Pathology, Bio-Chemistry and Bio-Physics of Plants, Bacteria, Ecology, Palæobotany, Cytology, History of Botany, with a knowledge of a special section.

The examination to consist of four papers. Practical examination of 12 hours.

PHYSIOLOGY.

General, experimental and chemical Physiology, with special attention to one particular section. The history of Physiology. Histology.

The examination to consist of three papers and an essay. Practical examination of 10 hours.

SCHEDULE OF PROFESSIONAL SUBJECTS
OF THE HONOURS SCHOOL OF
APPLIED SCIENCE.

1. Agriculture.
2. Mechanical Engineering.
3. Marine Engineering.
4. Civil Engineering.
5. Electrical Engineering.
6. Naval Architecture.
7. Mining.
8. Metallurgy.

M.Sc. EXAMINATION.

The following are recognised amongst others as special branches of the several Natural and Technical Sciences adequate for the purpose of this examination.

MATHEMATICS.

Plane Geometry.
Geometry of three Dimensions.
Theory of Algebraic Forms.
Differential Equations.
Theory of Functions.
Theory of Quaternions.
Dynamics of a Rigid Body.
Hydromechanics.
Theory of Attractions and Potential, including Spherical Harmonics.
Astronomy.

EXPERIMENTAL PHYSICS.

Mechanics and Acoustics.
Heat and Thermodynamics.
Light.
Electricity and Magnetism.

CHEMISTRY.

Pure Inorganic Chemistry.
Pure Organic Chemistry.
Analytical Chemistry.
Applied Chemistry.
Physical Chemistry.
Agricultural Chemistry.

GEOLOGY.

Physical Geology.—Astronomical Relations of the Earth :
general knowledge.
Volcanic and Subterranean Phenomena ; Meta-
morphism ; Denudation ; Glacial Phenomena.
Rock-formation.
Origin of Lodes and Veins.
Lithology.—Lithology.
Mineralogy of rock-forming Minerals.
Micro-petrography.
Descriptive Geology.—Stratigraphy.
Leading features of European Geology.
Topographical Geology of Britain, or some equally
well-defined region.
Palæontology.—Flora and Fauna of the great
Fossiliferous Formations.
One important Group of Fossil Forms.

Mining Geology.—Physical Geology so far as relates to Subterranean Phenomena, and the Origin of Lodes and Veins.

Stratigraphy.

Mineralogy so far as relates to Minerals used in the Arts.

Geological Surveying.

Agricultural Geology.

BOTANY.

Histology.

Classification.

Physiology.

Pathology.

Morphology.

Palæobotany.

The origin and characters of the various Flora.

Bacteriology.

Agricultural Botany.

ZOOLOGY.

Embryology.

Morphology and Morphogenesis.

Histology and Histogenesis.

Physiology.

Palæozoology and Distribution.

Parasitology.

Economic Zoology.

Agricultural Zoology.

Marine and Oceanic Zoology.

Philosophy and History.

PHYSIOLOGY.

AGRICULTURE.

Soils.

Crops.

Live Stock.

Dairying.

Forestry.

Candidates presenting any of these subjects are required to satisfy the Examiners as to their knowledge of Agriculture as a whole.

ENGINEERING.

Mechanical Engineering.

Marine Engineering.

Civil Engineering.

MINING.

Metalliferous Mining.

D.Sc. EXAMINATION.

COURSES IN COMMERCE.

2. Candidates for the degree of Bachelor of Commerce are required to have passed the Matriculation Examination of this University or its equivalent. If a modern foreign language was not presented at the Matriculation Examination the candidate before entering on his Commerce Course must pass an examination in such a language.

3. Candidates are required to attend for a period of at least three academic years the following course of study; but the Faculty may allow a candidate, under special circumstances, to study the subjects for the degree in an order different from that prescribed.

FIRST YEAR. (Examinations in June and September).

- (i) Elementary Economics.
- (ii) Business Knowledge—Accounting.
- (iii) A Modern Foreign Language.
- (iv) General Economic Geography.
- (v) *Either Mathematics or Modern History or Military Science.*

SECOND YEAR. (Examinations in June and September).

- (i) Advanced Economics.
- (ii) Business Knowledge—Commercial Law.
- (iii) The Modern Foreign Language taken in the first year.
- (iv) and (v) *Either* (a) *Two* subjects from Group A.
 or (b) *One* subject from Group A and one from
 Group B.
 or (c) *Two* subjects from Group B.

THIRD YEAR. (Examination in June).

- (i) Economics—*Either* The Organisation of Industry and Commerce.
or The Organisation of Transport.
- (ii) The Modern Foreign Language taken in preceding years.
- (iii) and (iv) Two or more subjects as follows. If in the Second year the course adopted under (iv) and (v) has been :—

Course (a)—then the two subjects chosen must be continued for the third year ;

Course (b)—the subject from Group A must be continued for the third year, together with an additional subject from Group B ;

Course (c)—two additional subjects from Group B must be chosen.

4. The examination for the degree of Bachelor of Commerce is divided into three parts, corresponding to the three years' course of study and called the First, Second and Third examinations. Candidates may offer themselves for the whole, or, subject to the approval of the Faculty, for part of any of the examinations, provided only that they have completed the prescribed attendance in those subjects in which they present themselves for examination. Candidates may not, however, without the consent of the Professor of the subject concerned, proceed to the next year's course of study of a subject in which they have not passed the examination prescribed in that subject for the preceding year.

5. The names of successful candidates will be published in alphabetical order ; but distinction may be awarded to candidates who have completed the Third Examination for the degree, and who have shown sufficient merit in the Second and Third Examinations.

6. Instead of attending for three years as Day Students, candidates for the degree of Bachelor of Commerce may attend for two or more years as Evening Students and for two additional years as Day Students.

7. Candidates who have passed the Final Examination for a degree of this or any other University of the United Kingdom, or who present evidence of previous study satisfactory to the Faculty, may be excused such attendance and examination as the Faculty may determine, and may proceed to the degree of B.Com. after two years of study of the subjects for the degree.

8. The detailed subjects of examination and the hours of attendance required in each subject are as follows :—

FIRST YEAR.

- (i) Economics. The elements of Political Economy. (Two hours a week for three terms).

- (ii) Business Knowledge. The principles and practice of Accounting. (Candidates who are not practising accountants must attend at least one hour a week for three terms. Candidates who are practising accountants, and have passed a public examination in accounting, may be excused such attendance as the Faculty thinks desirable).
- (iii) A Modern Foreign Language. (Three hours a week for three terms).
- (iv) and (v) General Economic Geography. The influence of geographical conditions on economic and political development. (Two hours a week for three terms).
- (v) Mathematics.
 Geometry, including the subject matter of Euclid, Bks. III, IV and VI.
 Algebra, including Binomial theorem and use of Logarithms.
 Trigonometry, including solution of triangles.
 Elementary principles of Mechanics.
 Elements of Geometrical Conic Sections.
- (vi) Modern History. General history from 1815 with special reference to social and economic developments.
 (Two hours a week for three terms).
- (vii) Military Science, Part I—see p. 170.

SECOND YEAR.

- (i) Economics. The chief problems of Production, Distribution, Consumption and Exchange.
 (Two hours a week for three terms).
- (ii) Business Knowledge—Commercial Law.
 (Two hours a week for three terms).
- (iii) A Modern Foreign Language.
 (Two hours a week for three terms).
- (iv) Special Subjects—see below.

THIRD YEAR.

- (i) Economics—A description and analysis of the organisation and methods *either* of Modern Industry and Commerce *or* of Modern Railways.
 (Two hours a week for three terms).
- (ii) A Modern Foreign Language.
 (Two hours a week for three terms).
- (iii) and (iv) Special Subjects—see below.

SPECIAL SUBJECTS.

Group A.

- (i) A second Modern Language.
- (ii) A third Modern Language.
- (iii) Mathematics.
- (iv) A Science applicable to manufacture.

- (v) A second Science applicable to manufacture.
- (vi) Banking and Currency.

Group B.

- (i) International Trade and the Foreign Exchanges.
- (ii) Foreign Trade of the chief Commercial Countries.
- (iii) Railway Economics.
- (iv) Railway Operating.
- (v) Railway Geography for the United Kingdom.
- (vi) Railway Law.
- (vii) Public Finance.
- (viii) Mathematics (Provided it is not taken under Group A).
- (ix) Statistics.
- (x) A period of Economic History.
- (xi) A second period of Economic History.
- (xii) A third period of Economic History.
- (xiii) Political Science.
- (xiv) Accounting (Special branch).
- (xv) The Economics of the Coal Industry.
- (xvi) The Economics of the Iron Industry.
- (xvii) The Economics of any other Industry.
- (xviii) Shipping.
- (xix) Insurance.
- (xx) Office Organisation and Management—including Secretarial work.
- (xxi) Military Science, Part II—see p. 170.
- (xxii) General Economic Geography.

(In each of the subjects of Groups A and B a course of study must be followed to the satisfaction of the Professor of the subject).

Candidates for B.Com. who do not offer Military Science as a part of their degree course, may offer it as an extra subject, and, if successful, shall receive from the University a special certificate to that effect.

9. The Degree of Master of Commerce.

Bachelors of Commerce of at least three years' standing may be admitted to the degree of Master of Commerce. They will be required to offer a dissertation on some subject approved by the Board of the Faculty, and to submit to such examination on the subject of their dissertation as the Examiners may desire.

Bachelors of Commerce are allowed to submit their dissertation after the completion of one year after taking their B.Com., provided it be not later than March 31st in the year in which they wish to proceed to the degree, but cannot proceed to the degree of M.Com. until they are of the proper standing.

STATUS OF ADVANCED STUDENT AND
DEGREE OF DOCTOR OF PHILOSOPHY.

1. The University is prepared to admit to the status of Advanced Student candidates from this and other approved Universities who shall satisfy such conditions as the University may from time to time determine.

2. All candidates admitted to the status of Advanced Student shall enter upon a course of Advanced Study or Research under the supervision of the University. This course shall be of not less than two years duration. After the first year of the course candidates may in certain cases be permitted to continue their course of study at some other approved place of Study or Research on conditions approved by the University.

3. At the end of their course candidates for the degree of Ph.D. will be required:—

- (a) To present a Thesis on a subject which has been approved by the University;
- (b) To present themselves for an oral examination in subjects relevant to the Thesis;
- (c) To present themselves also for a further written examination, if called upon to do so.

N.B.—The conditions under which candidates are admitted to the Status, and the detailed regulations as to the subjects and conditions of Research, are under the consideration of the University and will be issued as soon as they have received the approval of Senate.

SCHOLARSHIPS, EXHIBITIONS AND PRIZES.

The following have been awarded during the year 1917-18:—

FOUNDATION SCHOLARSHIPS—

In Mathematics—£70 Wren, John C. E.
£40 Sanderson, James B.

In English and History—£40 Eyles, Olive.

RENEWALS FOR SECOND YEAR—

Mathematics—£30 Iliff, Phyllis.⁶
£30 Willis, May.⁸

Theology—£70 Dobson, Henry W.⁵

and made the requisite declaration.

JUNE 25TH, 1918.

Arthur Robinson, M.A., D.C.L., was appointed Senior Proctor, and James Acworth Menzies, M.A., M.D., was appointed Junior Proctor for the ensuing academical year by the Vice-Chancellor as acting Chancellor, owing to the death of the Chancellor, the late Duke of Northumberland.

The Right Honourable John George Lambton, Earl of Durham, K.G., P.C., was appointed Chancellor, in accordance with the nomination of Senate.

Henry Edwin Ferens, M.A., having been nominated to represent Convocation upon the Council of the Durham Colleges, in accordance with the provisions of Statute 44 (*h*), was declared duly elected for the next period of three years.

Stephen Richard Platt Mouldsdales, M.A., B.D., and Robert Alfred Bolam, M.A., M.D., were appointed delegates to attend a Conference of the Convocations of the joint University Parliamentary Constituency, to consider in what way united action may be taken with respect to the nomination of candidates for election to Parliament, in accordance with a proposal received from the Convocation of the University of Leeds.

It was agreed that the house concur in a resolution of the University of Manchester :—

“ That in the opinion of Convocation it is desirable to justify University Representation by securing as Members of Parliament for the combined new English Constituency persons of educational distinction and competent to express adequately the standpoint of the newer Universities as regards educational reconstruction.”

CHANGES IN REGULATIONS, ETC.

(i) After 1920 the present courses of study and examination for Honours in English and Modern History (Newcastle) will be replaced by new syllabuses; and the course of study and examination for Honours in Modern History, *taken conjointly with another subject*, will be withdrawn in the Newcastle Division.

(ii) For the degree of B.A. in the Durham Division it has been decided :—

(1) That for students beginning to keep terms at Durham in and after Michaelmas Term, 1919, the course of study in Arts shall be one of not less than nine terms, reckoned from the term in which they are duly matriculated after having passed the Matriculation Examination.

(2) That the Regulations for the pass degree of B.A. at Durham be assimilated to those for the degree of B.A. (other than in *litteris antiquis*): provided:—

(a) That all candidates shall, ~~save~~ as hereinafter excepted, be required to pass an Intermediate, a Second Year and a Final Examination.

(b) That the Intermediate Examination shall consist of five subjects, the Second Year Examination of five subjects and the Final Examination of four of the subjects offered in the Second Year Examination. Students may be allowed to offer in lieu of their Final Examination the subjects prescribed for the Diploma in Theology, and for those who do so the Second Year Examination shall consist of three subjects, two of the three being Latin and Greek as prescribed for the Final Examination. Such students shall be entitled to proceed on the completion of their Final Examination to the Diploma in Theology as well as to the degree of Bachelor of Arts.

(c) That students who have passed the Matriculation Examination and subsequently kept six terms at Durham or at an associated Theological College and have passed both parts of the Examination for a Licence in Theology and have been duly granted the Title of Licentiate in Theology by Convocation, may count the terms so kept in Theology in lieu of six of the terms required for the Degree of B.A., and the examinations passed for the L.Th. in lieu of the Intermediate and Second Year Examinations. Such candidates will, however, be required to satisfy the Examiners in the Final Examination in six subjects, not less than four of which shall be taken at one and the same examination.

(d) The Council of the Durham Colleges may dispense any student from actual residence in Durham and attendance upon Lectures for a period of not exceeding three terms. But no student shall be eligible to proceed to the degree of Bachelor of Arts unless he is of the standing of nine terms from Matriculation. Such dispensation shall not issue to any student who has been granted the concession set forth in the preceding paragraph. Provided that such student, having been dispensed from residence, may be allowed to offer himself as a candidate for the Final Examination in six subjects as provided in the preceding paragraph in lieu of the Second Year and Final Examinations.

(iii) For the future, in both Divisions of the University:—

I. All students proceeding to a degree in Arts will be required to attend a course of Lectures giving a general con-

spectus of Science. The course to consist of 30 lectures extending over three terms and dealing with

- (a) Chemical—Physical Aspects.
- (b) Biological Aspects.
- (c) Geological—Geographical Aspects.

The lectures to form part of the second and third year curricula, arranged so that the first two terms work form part of the Michaelmas and Epiphany Terms of the second year curriculum. The Geological—Geographical section to be part of the third year curriculum and given during the Michaelmas Term.

II. All students proceeding to a degree in Science will be required to attend a course of lectures on the main contribution to civilisation made by :—

- (a) The Ancient World.
- (b) The Mediaeval World.
- (c) The Modern World.

The course to consist of 30 lectures and the lectures to form part of the second and third year curricula, arranged so that the first two terms work form part of the Michaelmas and Epiphany Terms of the second year curriculum.

Attendance will be compulsory for all candidates for the above degree, and they will be required to satisfy the Lecturers by regularity in attendance, and by evidence of an intelligent appreciation of the work of the courses, as shown by their note books.

(iv) For the future no late entries will be accepted for examinations in the Faculty of Arts.

(v) Exercises for the degrees of D.D., D.C.L. and D.Litt. must now be sent to the Secretary of Examinations at Durham not later than the *first day* of the Easter and Michaelmas Terms respectively.

MATRICULATION.

In and after 1918 the Matriculation Examination in all Faculties at Durham will be held in the week preceding Michaelmas Term, the week preceding Epiphany Term, and the first or second week of the Long Vacation, and the Examination in April will be discontinued.

The Scholarships and Exhibitions (including the Winifred Foster Scholarship) hitherto offered in April will in future be offered in July.

Candidates who were preparing for the Durham Matriculation before the war, and who have been engaged on National Service, will be allowed to offer the set books which they were preparing before undertaking National Service.

In and after October, 1919 all candidates for Matriculation at Durham will be required to satisfy the Matriculation Examiners in six subjects, namely Latin and five other subjects, one from each of the following groups :—

- (1) Greek, French, German ;
 - (2) (Additional) Mathematics, Logic ;
 - (3) English, Greek Testament ;
 - (4) Religious Knowledge, Ancient History ;
 - (5) English History, Physical and General Geography,
- or any of the above subjects not already offered.

“Elementary Mathematics” will be withdrawn and the Mathematical subjects of examination will be entitled respectively “Mathematics” and “Extra Mathematics.”

During the war, candidates for admission at Durham from the Navy, Army or other approved form of National Service may obtain credit by passing in one or more Matriculation subjects at a time, until the whole examination is complete; the fee for examination being 30/- for the first entry and 5/- per subject afterwards. Further the examination may be taken under the supervision of a Naval Chaplain, a Chaplain to the Forces or other responsible person, where the candidate is stationed.

Candidates who during the present war have served in His Majesty's Forces or other approved forms of National Service will be received at Durham for a special course of training for the Ministry, which in the case of Non-Graduates will occupy two years. On passing the required examinations they will receive a Theological Certificate and may further proceed to the L.Th., if they have passed the Matriculation Examination and satisfied the Examiners for part B of the L.Th. in Greek. Tuition will be provided either in Arts or Theology, and candidates who obtain the Theological Certificate will be able to proceed to the degree of B.A. after a shortened period of residence in Arts.

SECONDARY SCHOOL EXAMINATIONS.

Examinations for School Certificates and Higher Certificates have been established by the University.

For the School Certificate Examination held in July, 1918, there were 486 candidates of whom 308 obtained Certificates, 270 being original certificates and 38 certificates in additional subjects gained by candidates who passed last year.

The Examination will be accepted by the University for Matriculation, provided (a) that the requisite subjects are included, (b) that a sufficient standard in each subject is attained.

The School Certificate Examination will be accepted as qualifying for admission to a Training College, or for the purpose of recognition as an Uncertificated Teacher, provided that the candidate :—

Either (a) has obtained the School Certificate, and has reached a *sufficient* standard (whether at one or more examinations) in the subjects of English Composition and Literature, English History, Geography, and Arithmetic.

Or (b), without having gained the School Certificate, has at one and the same examination :—

(i) reached a *sufficient* standard in English Composition and Literature, English History, Geography, Arithmetic, and a fifth subject to be selected *either* from the subjects of Group C, *or* from the subjects of Group D.

(ii) reached a *satisfactory* standard in Group A, and in the Examination as a whole.

In the Higher Certificate Examination the subjects are arranged in four groups and candidates must satisfy in (i) an essay or other general paper in English not requiring special preparation, (ii) three Principal subjects taken from *one* group, (iii) a Subsidiary subject, at a lower level of attainment, taken from a different group.

It has been agreed :—

(1) (For Arts) that until such time as Senate shall otherwise determine, candidates for the Higher School Certificate Examination who have previously passed the Matriculation Examination or an examination equivalent thereto and are specially recommended by the Examiners in the Higher Certificate Examination, may be excused from the first year of study and from the Intermediate Examination in Arts provided they enter upon a course of study in Honours extending over a period of not less than three, nor more than four years. Provided that no such candidate shall be of standing to proceed to the Degree of Bachelor of Arts, unless he shall have pursued a course of study in the University for not less than three academical years.

(2) (For Science) that until the Higher Certificate Examination has come into full operation no precise rules should be laid down as to the conditions under which it be accepted for the purpose of exemption ; but that for the present each case be considered by the Professor or other head of the Department concerned and the Principal.

For particulars application should be made to the Secretary to the Secondary Schools Committee, Mr. F. H. Pruen, College of Medicine, Newcastle-upon-Tyne.

L.TH. EXHIBITIONS.

In future two Exhibitions of £30 will be offered to candidates for the Licence in Theology in December, one of £30 in March, and two of £30 in June, tenable for three terms during residence in Arts; and the award of Prizes to such candidates will be discontinued.

The Exhibitions will be awarded on consideration of the marks gained in both Part A and Part B of the examination for L.Th., but only to candidates who agree to enter upon their tenure in the Michaelmas or Epiphany Term next following, if awarded in March or June, and in the Epiphany or Michaelmas Term next following, if awarded in December.

COLLEGE CHARGES AT DURHAM.

From October, 1917, until further notice, the expenses at Durham Colleges will be met by an inclusive annual charge (£100 at University College, £80 at either of the Halls) payable in three equal terminal instalments, in the first week of term. This charge will include Admission and Tuition Fees, and Fees for University (but not Matriculation) Examinations, *each on one occasion*; also Board, Lodging, Subscriptions and Gratuities, (but not Degree Fees, Caution Money, or Laundry charges).

ACADEMICAL DRESS.

It has been decided that the gown for students in Commerce should be the same as for Arts students, namely:—

“Black cord, with short square sleeve, with open vent.”

PARLIAMENTARY REPRESENTATION.

The Universities of Durham, Manchester, Liverpool, Leeds, Sheffield, Birmingham and Bristol have been formed into a combined Constituency returning two Members to Parliament, to be elected according to the principle of Proportional Representation. Graduates can be registered as electors on payment of a fee of £1, if they are of full age (or in the case of women 30 years of age) and not subject to any legal incapacity. Membership of Convocation (the fee for which is £2) entitles the member to be placed on the Parliamentary Register without further fee. The right to vote for a University Constituency may be exercised in addition to the right in respect of a residence qualification, but at a General Election a graduate registered at more than one University may vote for one University only.

The following students have matriculated during the year 1917-1918.

SPECIAL REGULATIONS RESPECTING PERSONS ON MILITARY SERVICE.

Until further notice, in the case of students who have duly qualified for a degree in any Faculty and are unable to present themselves at Convocation owing to their absence on (Naval or) Military Service, the Proctors, upon the production of a certificate signed by an officer of the regiment to which the candidate is attached, will supplicate Convocation to confer upon such candidates their respective degrees "during their absence on Military Service." No additional fees will be payable in respect of such degrees.

Candidates for such degrees should send their full names, their certificates of having passed the examinations required and of having kept the necessary residence (if any) together with the Degree Fee and the certificate signed by an officer that they are upon Military Service, to the Senior Proctor, so as to reach him in good time before the day of Convocation.

In the case of Candidates for Honours who are upon Military Service, the terms during which they are absent will not be reckoned in computing the standing for Honours.

In the case of Medical Students, the time spent as assistant on Active Medical Service, Naval, or Military, not exceeding three months, will be allowed to count for the equivalent period of Medical and Surgical Hospital Practice and for three months each of the required period of Medical Clinical Clerkship and Surgical Dressership, provided that a satisfactory certificate is produced.

Students of the Durham Colleges or of Armstrong College, who are absent on National Service, as defined above, will be exempted from residence to

the extent of three terms, provided that, unless Senate shall otherwise determine, no student be allowed to proceed to a degree with less than six terms' residence; except that a Pass student at Durham who has kept two terms and has been absent on National Service, may (provided his record in Collections is creditable) be excused the third term of residence as well as such part (or the whole) of the First Public Examination in Arts or Theology or the Intermediate Examination in Arts, as Council on the report of his teachers may decide. In the case of students at an associated Theological College, the report of their College Authorities will be accepted in lieu of that in Collections.

Pass students of Armstrong College in their first or second year who are absent on National Service, as defined above, may, on the report of the Teachers concerned, be recommended to Council for permission to proceed to the next year's course without further examination or residence; or they may be exempted from a portion of the next examination. In the case of First Year Students, at least one term of residence will be required. For pass students of Armstrong College in their final year, who have passed their first and second examinations, application may be made to Senate that they be allowed to proceed to their degree without further examination, if the Professors and Teachers concerned make special recommendation to that effect.

In the Pass Courses for the First and Second Years, Military Service may be accepted in lieu of the examinations in Military Science.

In the case of Honours students at Durham, a special note stating that they have been absent on National Service will be appended to their class lists and testamurs.

Honours students of Armstrong College may (at their option) either (a) be exempted from such portion of the Final Examination as shall be recommended by the Teachers concerned, or (b), if they have resided for not less than two years and have passed their First and Second Year Examinations, they may, if the Professors and Teachers concerned make special recommendation to that effect, be allowed the ordinary degree without further residence or examination; and such candidates may, if they so desire, offer themselves for examination for Honours at any time within three years from the termination of the War.

Members of the Durham Colleges who are holders of Scholarships or Exhibitions may, upon their return from National Service, resume the tenure of such Scholarships or Exhibitions.

In the case of members of the Durham Colleges no absentee fees will be payable in respect of terms during which they have been absent upon National Service.
